# Workers Compensation Managed Care: The 3-Legged Stool

**Tuesday, May 16, 2017 (1:00 PM CT)**

30 minutes | Complimentary | Advance registration required

Many people believe they have limited to no control over their workers compensation claims process. It can sometimes cause confusion, uncertainty, and at times, frustration. This webinar will focus on the three main and interconnected areas (3-legged stool) of workers compensation – prompt claims reporting, return to work/modified duty, and network provider utilization. If any one of those is missing, your program may be less stable than it could be! This webinar is a must see for those who manage the workers compensation within their business and are looking to improve their overall results.

## WHO SHOULD ATTEND

- Risk Managers
- Operations Managers
- HR Professionals
- Owners/Operators

## KEY DISCUSSION POINTS

- Why workers compensation is considered the “people coverage” and how it is different from other coverage lines (Property, Auto, Liability, etc.)
- How prompt claims reporting, return to work/modified duty programs, and network provider utilization impact results
- Why communication is so critical to the overall implementation and success of a strong managed care program

After registering, you will receive a confirmation e-mail and calendar appointment.
