

Welcome to the **CT Green Energy News** archives. All past issues (except possibly for some recent ones) are included in this one file, so that you can search by keyword. One way to do this is by using the FIND function in your web browser. In Chrome for example, click EDIT, scroll down to FIND, click FIND, and then enter a keyword such as 'Green Bank'. -Peter Millman, 8/5/18, peter.millman7@gmail.com

CT Green Energy News - (8/17/18-Issue 77)

- [Critics of Major Solar Project Challenge State Siting Council Approval](#)
 - *Hartford Courant*. Yet for Connecticut to meet it's renewable energy targets, utility scale solar needs to be part of the mix. In this letter, [9 Points About the Solar Project](#), the developer of one of the projects cited above rebuts some of the arguments made by critics. Similar challenges face our neighbor, [Rhode Island](#).
- [New England Clean Energy Legislative Roundup](#)
 - *RTO Insider*. Interesting review of 2018, "...ranging from Connecticut's "most important energy bill" in seven years, to Massachusetts taking "baby steps," to Rhode Island taking what might turn out to be a "regrettable pause."
- [Plan to revitalize Connecticut's ports and marine economy](#)
 - *CT Post*. "The five-year plan focuses on the State Pier in New London, which is being retrofitted to serve as a material staging and shipping point for offshore wind power projects near Block Island."
- [Offshore wind energy developer reconfigures proposed layout](#)
 - *Cape Cod Times*. It appears that offshore wind farms can be made to be compatible with commercial fishing.
- [Ocean State Job Lot relighting stores](#)
 - *Hartford Business Journal*. 28 stores of this 131 store chain are in CT. The annual savings of 17.4 kwh is roughly equivalent to building an 11.5 MW solar field and will save the company about \$2.7 million every year.
- [A 19th-century solution to heat homes is helping the world cut emissions](#)
 - *Quartz*. Heat pumps are a "humble solution" to a big challenge problem, namely how to heat and cool our homes and businesses without fossil fuels. If you are a renewable energy advocate, it's worth knowing about heat pumps.

Upcoming Events

Hearing for proposed \$86 million gas rate hike

What : Attend a CT Public Utility Regulatory Authority hearing to comment on a proposed Eversource \$86 million rate increase to repair and replace existing pipes .For some background, [click here](#) for an article in the Hartford Courant.

When : August 20, 2018 - 6:30pm

Where : Bruce Bellingham Auditorium, Windham Town Hall, 979 Main Street, Willimantic. For the Eversource announcement and their background information [click here](#).

Climate, Jobs & Justice – A Week of Free Events

What : A week of over [20 events](#) taking place across CT from 9/2-9/8. Test out an electric vehicle, explore how to create a rain garden, or learn how your town can move to 100% renewables.

When/Where : September 2-8. For a listing of events, locations and times, [click here](#) .

Eastern CT Green Action Monthly Meeting

What : We want to hear what you have been doing, plus we are excited to have [Lynn Stoddard](#) as our speaker and special guest. Lynn is a member of the Governor's Council on Climate Change (GC3), Director of the Institute for Sustainable Energy at Eastern, and a prime mover in the creation of Sustainable CT. She will address accomplishments and challenges facing the GC3, as well as take questions on a variety of topics.

When : Saturday , September 8, 2018, 10:00am

Where : Mansfield Public Library, Buchanan Auditorium, 54 Warrenville Rd (Route 89), Mansfield Center.

Rally for Climate, Jobs and Justice

What : A march organized by the People's Climate Movement to demand bold action from our leaders. One of many marches the group is planning across the U.S., including three in southern New England.

When : Sunday , September 9, 2018, 1:00pm

Where : New Haven Green, 250 Temple St., New Haven, CT. For more information [click here](#).

K.I.S.S. Keep It Simple Smarty Pants

What : CT Passive House presents a builder's perspective on constructing a low-cost, high-performance home. [Click here](#) for more information and to register.

When : Tues day , September 18, 2018, 6:00-9:00 pm

Where : Stony Creek Brewery, 5 Indian Neck Avenue, Branford, CT 06405

Electrification of the Heating Sector: Exploring Consumer Choices

What : A forum for the exchange of information between ISO New England and electricity consumers in New England.

When : September 20 , 2018 - Noon-3:30 pm

Where : [DoubleTree by Hilton Hotel at Hartford-Bradley Airport](#) . Also, you can attend by teleconferencing. To register and for more information [click here](#).

CT Green Energy News - (8/10/18-Issue 76)

- [CT Green Bank takes novel approach to preserve clean-energy mission](#)
 - *Hartford Business Journal*. "In an unusual move for a state entity, the quasi-public Connecticut Green Bank has spun out a nonprofit to help it carry on several key energy-efficiency programs amid a major funding crunch."
- [Massachusetts utilities sign contracts to import Canadian hydropower](#)
 - *Utility Dive*. The hope is that it will be a, "...highly cost-effective source of clean energy generation for Massachusetts customers that could cut retail bills by 2 to 4 percent and reduce the region's reliance on natural gas to produce electricity."
- [First 'cohousing' project in Connecticut comes to Bethany](#)
 - *New Haven Register*. The [Rocky Corner Co-Housing](#) project has a strong sustainability component that can serve as a model for residential developers.
- [Massachusetts Legislature Approves Higher Renewable Portfolio Standard](#)
 - *CleanTechnica*. "With this bill, the Massachusetts Legislature took baby steps when what is needed are giant strides..."
- [Police Department in Cheshire will get carport with solar panels](#)
 - *New Haven Register*. "...the deal with [Greenskies Renewable Energy](#) will allow the department to save \$6,000 annually on its electric bill without having to spend a dime."
- [Quantum's latest Southington energy-saver](#)
 - *Hartford Business Journal*. This innovative biogas operation has now added solar. The facility should be replicated elsewhere in the state.

Upcoming Events

CTGBC/CT PASSIVE HOUSE HAPPY HOUR

What : Take a break from the summer heat and join CTGBC and CT Passive House (CTPH) for a networking happy hour at the Brewport Brewing Co. in Bridgeport. Brewport is known for its Connecticut style beers, thin crust pizza, and gourmet salads .

When : August 15, 2018 - 5:30pm to 7:00pm

Where : Brewport Brewing Co., 225 South Frontage Rd, Bridgeport, CT 06604. For more information [click here](#).

Hearing for proposed \$86 million gas rate hike

What : Attend a CT Public Utility Regulatory Authority hearing to comment on a proposed Eversource \$86 million rate increase to repair and replace existing natural gas cast iron and bare-steel pipes .

When : August 20, 2018 - 6:30pm

Where : Bruce Bellingham Auditorium, Windham Town Hall, 979 Main Street, Willimantic.

Electrification of the Heating Sector: Exploring Consumer Choices

What : A forum for the exchange of information between ISO New England and electricity consumers in New England.

When : September 20 , 2018 - Noon-3:30 pm

Where : DoubleTree by Hilton Hotel at Hartford-Bradley Airport . Also, you can attend by teleconferencing. To register and for more information [click here](#).

NO ECGA Monthly Meeting in August

What : Eastern CT Green Action is **taking a break** for the summer and will resume our monthly meetings in September. This newsletter will continue during the break and don't hesitate to get in touch if you need help with a project or have a question. Otherwise enjoy the summer and see you in the Fall!

When : Again, note that there will be **NO MEETING in August** . We will reconvene on Saturday, September 8, 10-11:30, at the Buchanan Center at the Mansfield Library.

Rise for Climate, Jobs and Justice

What : A march organized by the People's Climate Movement to demand bold action from our leaders. One of many marches the group is planning across the U.S., including three in southern New England.

When : Sunday , September 9, 2018, 1:00pm

Where : New Haven Green, 250 Temple St., New Haven, CT. For more information [click here](#).

CT Green Energy News - (8/3/18-Issue 75)

- [Editorial: Don't Steal From Energy Programs](#)
 - *Hartford Courant*. "This money is ratepayer money, set aside for a certain purpose. The legislature had no business stealing it."
- [First Large US Offshore Wind Project Sets Record-Low Price Starting at \\$74 per MWh](#)
 - *Greentech Media*. Connecticut should go all in if offered this kind of pricing.
- [Middletown water plant solar array reduces electricity use of 'largest energy hog in city'](#)
 - *The Middletown Press*. The city's next challenge: shared solar.
- [Report Encourages Cleaner, Sustainable Transportation System For New England](#)
 - *WNPR*. Land use regulations such as those instituted in Old Saybrook, CT, will be a big part of the solution.
- [Green Bank CEO contemplates CT's solar growth pace](#)

- *Hartford Business Journal*. Incentive programs have helped seed 215 megawatts of solar since 2010, but the programs expire at 300 megawatts. What will happen after that?
- [DEEP paves way for Millstone's power bid](#)
 - *Hartford Business Journal*. Among the questions remaining: Is Millstone an 'at risk' producer? Is Dominion bluffing? Will accepting a bid from Millstone in the zero carbon RFP be deemed to be in ratepayers' best interests? Stay tuned

Upcoming Events

CTGBC/CT PASSIVE HOUSE HAPPY HOUR

What: Take a break from the summer heat and join CTGBC and CT Passive House (CTPH) for a networking happy hour at the Brewport Brewing Co. in Bridgeport. Brewport is known for its Connecticut style beers, thin crust pizza, and gourmet salads.

When: August 15, 2018 - 5:30pm to 7:00pm

Where: Brewport Brewing Co., 225 South Frontage Rd, Bridgeport, CT 06604. For more information [click here](#).

NO ECGA Monthly Meeting in August

What: Eastern CT Green Action is [taking a break](#) for the summer and will resume our monthly meetings in September. This newsletter will continue during the break and don't hesitate to get in touch if you need help with a project or have a question. Otherwise enjoy the summer and see you in the Fall!

When: Again, note that there will be [NO MEETING in August](#). We will reconvene on Saturday, September 8, 10-11:30, at the Buchanan Center at the Mansfield Library.

CT Green Energy News - (7/27/18-Issue 74)

- [State Argues Budget Sweep of Energy Funds No Big Deal](#)
 - *Hartford Courant*. But plaintiffs counter that the funds should "...be returned and used for their intended purpose: projects that reduce home heating and electric bills, generate economic activity and jobs and reduce air pollution."
- [Comments on Draft Report on LNG Exports](#)
 - *Food & Water Watch*. Excellent analysis of the problem with LNG exports via an export terminal in Nova Scotia that will involve expanding the Algonquin Pipeline, which runs across CT from Danbury to Putnam. Investment in this pipeline will lock us into more fossil fuel infrastructure without taking into account continuing advances in renewable energy and the need to transition to a non-fossil fuel economy.
- [Hartford project stimulates FuelCell Energy's growth](#)
 - *CT Post*. A good example of how state procurement policy can affect an industry. We would just like to see renewable energy, not natural gas, be producing the hydrogen that powers fuel cells.

- [Connecticut Green Bank and PosiGen “Solar for All” Partnership – Bringing the Benefits of Clean Energy to LMI Communities](#)
 - *Renewable Energy World*. "Since the partnership launched in 2015, over 900 low-income verified households have signed up to go solar..."
- [Massachusetts Plugs Into the Sun for More Power](#)
 - *Eco RI News*. Compares the progress that MA, RI and CT have made in renewable energy development as the Massachusetts legislature considers the future of the state's clean energy policy

Upcoming Events

Net-Zero Living: Tour 2 Coastal Connecticut Homes

What: Join NESEA (Northeast Sustainable Energy Association) for this summer's Pro Tour featuring two recently-constructed single family homes by two different project teams. The event will begin with an opening presentation where the teams behind each of the homes will give overviews of the design and construction of the projects.

When: Friday, August 3, 2018 - 1pm to 5pm

Where: Mystic/Pawcatuck, CT (details in confirmation email). For more information [click here](#).

NO ECGA Monthly Meeting in August

What: Eastern CT Green Action is **taking a break** for the summer and will resume our monthly meetings in September. This newsletter will continue during the break and don't hesitate to get in touch if you need help with a project or have a question. Otherwise enjoy the summer and see you in the Fall!

When: Again, note that there will be **NO MEETING in August**. We will reconvene on Saturday, September 8, 10-11:30, at the Buchanan Center at the Mansfield Library

CT Green Energy News - (7/20/18-Issue 73)

- [Trump digs coal, and GOP candidates skip climate forum](#)
 - *CT Mirror*. "The GOP candidates opted for a safer choice: Accept an invitation to address Republicans in Southington...". To see a video of the Climate Change Forum at Trinity on Monday, [click here](#).
- [CT's natural gas expansion plan well behind schedule!](#)
 - *Hartford Business Journal*. Instead of using State of CT incentives to promote conversions from oil to gas, substituting one fossil fuel for another, why not use those same funds to promote energy efficiency and heat pumps?
- [Ackert to host a series of 'Coffee Hours' over summer](#)
 - *The Chronicle*. 8th District Republican Tim Ackert is the ranking member on the General Assembly's Energy and Technology Committee, which helped craft the important Senate Bill 9 and related legislation in 2018. This is a good opportunity to voice your concerns and hear about Connecticut's clean energy policy from a knowledgeable legislator.
- [Nor'easters underscore need for greenhouse gas action](#)
 - *Hartford Business Journal*. This opinion piece makes the case for fuel cell vehicles and announces 11 new hydrogen fueling stations to be built in the northeast, one of which will be in Hartford.
- [Report: CT solar has grown 53% per year](#)
- *Hartford Business Journal*. In 2010, CT generated 30 gigawatt hours from solar installations. By 2017, that number had grown to 463 gigawatt hours

Upcoming Events

NO ECGA Monthly Meeting in August

What: Eastern CT Green Action is [taking a break](#) for the summer and will resume our monthly meetings in September. This newsletter will continue during the break and don't hesitate to get in touch if you need help with a project or have a question. Otherwise enjoy the summer and see you in the Fall!

When: Again, note that there will be [NO MEETING in August](#). We will reconvene on Saturday, September 8, 10-11:30, at the Buchanan Center at the Mansfield Library.

- [**Dominion increased political spending while pushing for law**](#)
 - *CT Post*. Though this is a Virginia story, Dominion plays an outsized role in Connecticut's energy supply as it [threatens to close Millstone](#).
- [**CT offers up \\$7.5M from VW emissions scandal**](#)
 - *Hartford Business Journal*. "Connecticut is soliciting clean diesel projects to compete for a \$7.5 million portion of the state's coming \$55.7 million settlement with Volkswagen."
- [**Sustainable CT Milestone: 50 Participating Communities!**](#)
 - *Sustainable CT*. See all the towns on this interactive map. Is your town participating?
- [**Poll: Bipartisan Concern Over Highway Congestion and Pollution**](#)
 - *CT News Junkie*. "...76 % of Connecticut voters support state government acting to reduce air pollution from cars and trucks by investing in the state transportation system and relying more on fuel-efficient, electric cars and trucks, mass transit, and other public transportation options."
- [**Is Ductless Heating and Cooling Right for You?**](#)
 - *HGTV*. Part of our series on moving away from fossil fuels for heating. Heat pumps with mini-splits have real advantages for homeowners...and can reduce greenhouse gas emissions, too.

Upcoming Events

2018 CT Gubernatorial Forum

NOTE: DATE HAS CHANGED TO ACCOMMODATE MORE CANDIDATES.

What: *More than a dozen Connecticut-based climate action groups (including ECGA) are sponsoring this public gubernatorial forum for CT candidates, focusing on issues related to climate change. Hear from candidates about where they stand on climate change, clean energy, water protection and many other important environmental issues. The event will be moderated by NPR radio personality John Dankosky.*

When: Monday, July 16, 6:00-8:00 pm (was July 12)

Where: *The Washington Room, Mather Hall at Trinity College in Hartford.*

For more information and to reserve a seat for this free event, [click here](#).

NO ECGA Monthly Meetings in July or August

What: Eastern CT Green Action is **taking a break** for the summer and will resume our monthly meetings in September. This newsletter will continue during the break and don't hesitate to get in touch if you need help with a project or have a question. Otherwise enjoy the summer and see you in the Fall!

When: Again, note that there will be **NO MEETINGS in July or August**. We will

**reconvene on Saturday, September 8, 10-11:30, at the Buchanan Center at the
Mansfield Library**

Announcements

Eastern CT Green Action Monthly Meeting

What: *Join us for our regular meeting and special guest, Lori Brown from the CT League of Conservation Voters. As executive director, she played an important role in lobbying for clean energy issues during the 2018 legislative session. She will recap the good, the bad and the ugly of the legislation that passed, so bring your questions.*

When: *Saturday, June 9, 10:00-11:30am*

Where: *The [Mansfield Public Library](#), Buchanan Auditorium, 54 Warrenville Rd, Mansfield Center.*

Open Wall Tour of a Deep Energy Home Retrofit

What: *Tour a house in the middle of a 'deep energy retrofit', see the nuts and bolts of energy efficiency.*

When: *Saturday, June 9, 11:00-1:00*

Where: *Simsbury, CT. To get exact location and more information, register [here](#).*

Ribbon-cutting for Largest EV Charging Station in CT

What: *Ribbon cutting for 29 charging stations will be followed by a reception and panel discussion with representatives from the CT Fund for the Environment, Green Bank, Acadia Center, and DEEP. Opportunities to ride and drive electric vehicles.*

When: Wednesday, June 13, 5:00-7:00

Where: 777 Main St, Hartford, CT (Panel discussion in penthouse)

2018 CT Gubernatorial Forum

What: More than a dozen other Connecticut-based climate action groups (including ECGA!) are sponsoring this public gubernatorial forum for CT candidates, focusing on issues related to climate change and environmental justice. The event will be moderated by NPR radio personality John Dankosky.

When: Thursday, July 12, 6:00-8:00 pm

Where: The Washington Room, Mather Hall at Trinity College in Hartford.

For more information and to reserve a seat for this free event, [click here](#).

CT Green Energy News (6/1/18-Issue 66)

- **Overview of Key Provisions in Senate Bill 9 (Public Act 18-50)**
 - See **attached** summary table by Claire Coleman of CT Fund for the Environment, John Humphries of CT Roundtable for Climate and Jobs, and others. Clear, detailed look at a controversial bill, noting provisions supported by clean energy advocates, provisions opposed, and opportunities for future advocacy. Good guide as we go forward from here.
- **[Malloy Proposes State Pier Upgrade To Capitalize On Offshore Wind Projects](#)**
 - WNPR. Next DEEP needs to accept one of the recently submitted 190-200 MW wind proposals. Then CT can reap the rewards of clean energy, job creation and economic development.
- **[The Truth About Fuel Cells](#)**
 - Hartford Courant. Fuel cells could be 'renewable' energy, but generally are not yet. For more, read [Dan Haar: Fuel cell makers hoping state ends drought](#).
- **[Solar To Power Connecticut Water Treatment Facility](#)**
 - Solar Industry. "The site selected for our ground system is a hillside with shallow soils and rock ledge that is not suitable for crops."
- **[Does 112% growth in 2017 mean community solar has finally solved its complexity problem?](#)**
 - Utility Dive. With the 2018 passage of a CT shared solar program, we need to become more familiar with how shared solar works and how to promote it.

Eastern CT Green Action Monthly Meeting

What: Join us for our regular meeting and special guest, Lori Brown, the Executive Director of CT League of Conservation Voters. Lori was right in the middle of lobbying efforts for clean energy issues during the 2018 legislative session. She will recap the good, the bad and the ugly of the legislation that passed, so bring your questions.

When: Saturday, June 9, 10:00-11:30am

Where: The [Mansfield Public Library](#), Buchanan Auditorium, 54 Warrenville Rd, Mansfield Center.

CT Green Energy News (5/18/18-Issue 64)

- [2018 End-of-Session Report](#)
 - *CT Fund for the Environment*. Good recap of what just happened with clean energy legislation in the CT General Assembly.
- [Coalition Sues State Over Sweep of Energy Efficiency Funds](#)
 - *CT News Junkie*. "The efficiency programs are a valuable economic resource to our state economy, our health, our climate, and the ratepayers of Connecticut." CT Fund for the Environment is one of the plaintiffs and here is their [view](#).
- [Eversource customers can get \\$3,000 rebate on Nissan Leaf electric car](#)
 - *Concord Monitor*. You have until July 2 and the rebate does apply to Connecticut Eversource customers.
- [Local Utilities May Be In Hot Water Over Business Retreats](#)
 - *WNPR*. "...Rate-payers are saying 'Hey, that's our money.'"
- [State Clean Energy Laws Make New England Grid More Resilient](#)
 - *NRDC*. Renewable energy and energy efficiency not only reduce carbon emissions, but also make the grid more resilient and reliable.
- [CT Meeting to Advance 8-State Initiative for Cleaner Vehicles](#)
 - *American Journal of Transportation*. The meeting is open to the public and will be on **Monday, May 21, 2:00-5:00**, Gina McCarthy Conference Rm, DEEP, Hartford.

NONE!

CT Green Energy News (5/11/18-Issue 63)

Thanks to all who contacted their legislators during the just concluded session of the CT General Assembly! The principal clean energy bill, SB 9, which passed the legislature, has disappointing provisions concerning net metering but also contains important measures such as a 40% renewable portfolio standard for 2030 and a 25 MW per year community shared solar program. The legislation is better for your having participated in the process.

- [After near derailment, energy bill heads to governor as fence-mending begins](#)
 - *The CT Mirror*. The energy bill that passed divided the environmental community. Among the groups supporting SB 9 were CT Fund for the Environment, Clean Water Action, CT Roundtable for Climate and Jobs, and Eastern CT Green Action. Some of those opposing were Environment Connecticut, Solar Connecticut, and Acadia Center. For more, here is [an article](#) from earlier in the week
- [AN ACT CONCERNING CONNECTICUT'S ENERGY FUTURE](#)
 - *Office of Legislative Research (OLR)*. An in-depth analysis of SB 9 by the OLR.
- [Sweeping energy reforms clear House](#)
 - *Hartford Business.com*. A good rundown of the provisions in SB 9.
- [Controversial Changes To Connecticut's Solar Power Program Set To Become Law](#)
 - *WNPR*. And more...
- [Connecticut's UI Completes Woodbridge Microgrid](#)
 - *Microgrid Knowledge*. "Make no mistake, climate change is real, and we must plan for future storms and resulting power outages..."

Eastern CT Green Action Monthly Meeting

What: First, town reports, and then our speakers will be Mark Scully and Bernie Pelletier from PACE (People's Actions for Clean Energy), who will talk about the [100PercentCT initiative](#), a vision for CT towns to transition to 100% clean energy. The program asks what the transition to 100% renewables would look like and how to get there? Also, Diane Lentakis will introduce the CT Sierra Club's Ready for 100 campaign.

When: Saturday, May 12, 10:00-11:30am

Where: The [Mansfield Public Library](#), Buchanan Auditorium, 54 Warrenville Rd, Mansfield Center.

CT Green Energy News (5/4/18-Issue 62)

- [Time's running out - pass climate targets now!](#) (The CT General Assembly adjourns on May 9).
 - *CT Fund for the Environment*. A critical bill to protect our environment and economy is stalled in the state Senate, and the clock is running out [Fill out this simple form](#) to tell key Senate leaders and the governor that they don't have time to procrastinate any longer: they must pass interim climate targets this session.
- [ISO: New England's historic cold snap caused disproportionate fuel usage](#)
 - *Hartford Business.Com*. The solution to this problem in the winter is to promote more renewables, demand response, and storage, not an expansion of natural gas capacity.
- [Connecticut Launches Autonomous Vehicle Pilot](#)
 - *GovTech.com*. "...testing with safety drivers will be allowed in limited and controlled areas, not including limited access highways..."
- [WorkinCT: Greenskies bringing solar energy to Connecticut schools](#)
 - *Fox 61*. The company has worked with 35 municipal school districts in Connecticut. Here is a great [visual presentation](#) of a wide variety of Greenskies projects.
- [Canton Officials Consider Solar Panels For Two Schools](#)
 - *Hartford Courant*. Another CT school district wants to save money and reduce their greenhouse gas emissions.

Announcements

Eastern CT Green Action February Meeting

What: *Our regular monthly meeting, plus Jeff Davis will talk about the CT Roundtable for Climate and Job's offshore wind initiative.*

When: *Saturday, March 10, 10:00-11:30am*

Where: *First Church of Christ, 549 Storrs Rd (Rt 195), Mansfield Center. (NOT the Mansfield Library!)*

Who: *All are welcome*

Get Charged About EV's!

What: *Speakers will discuss everything from what CT is doing to support EVs (electric vehicles), to grid implications, to why you would want to drive an EV. Policy and practical issues of ownership. See attached flyer.*

When: *Saturday, March 3, 10:30am-1:30pm*

Where: *Energize CT Center, 122 Universal Dr North, North Haven.*

Lobby Day at the CT General Assembly

What: Lobby your legislators for more energy efficiency and renewable energy in CT. Details to follow. Mark your calendars for now.

When: Wednesday, March 14, 10:00am

Where: Legislative Office Building (near the State House), Hartford

2018 CT Land Conservation Conference

What: A full day of educational workshops and peer-to-peer networking for those interested in land conservation, followed by an informal reception with friends and colleagues from across the state. For more information, click [here](#).

When: Saturday, March 17, 8:30am-5:00pm

Where: Wesleyan University, Middletown, CT

Pomfret Film Series at Audubon

What: Documentary films have a unique power to raise awareness and spark action on topics such as the bottled water industry, the true cost of living in the wireless age, toxic chemicals, and climate change. Together with the Connecticut Audubon Society Center at Pomfret, the Pomfret Green Team is excited to invite you to a film series covering a variety of topics. See attached list for titles, times and contact information!

When: March 26, all at 6:30

Where: Connecticut Audubon Society Center at Pomfret.

CT Green News (2-2-18-Issue 49)

- [Middletown's Xavier High School Switching To Solar Power](#)
 - *Hartford Courant*. Another school goes solar and will save about \$50,000/year. Your town?
- [State says Millstone will get a final chance to prove it needs relief](#)
 - *CT Mirror*. "It is critical to ensure that the state's ratepayers are protected from paying above-market costs for resources that are not verified to be at risk of retirement."
- [Middletown Zoning Requires Electric Charging Stations For Large Developments](#)
 - *Hartford Courant*. This article was sent in by Bernie Pelletier, Chair of West Hartford's Clean Energy Task Force. But Middletown's laudable efforts got him thinking: *"Before I got my Bolt I would have applauded this. But now - I think we need to consider what the charging needs are. From my narrow standpoint - I charge at home and can go about 200 miles on a charge - so local Level 2 charging is not something I think I'll need. Even if I drove to a place 100 miles away - it wouldn't be of much use unless I was going to stay a long time. To me - Fast Charge (Level 3) along major roads is what I want and need. This is Bernie centric - and there are other viewpoints - but I do think my viewpoint will become more and more apparent as more cars with 200 plus miles of range are delivered."* Your thoughts?
- [Schneider Electric Moves Forward with Microgrid Projects in Connecticut, Maryland, California and Wisconsin](#)
 - *Microgrid Knowledge*. Milford will have an efficient heat and power microgrid that is also solar ready.
- [\\$1B commercial renewables program nears expiration](#)
 - *Hartford Business Journal*. What will follow CT's ZREC program?
- [Utility PPA secured for first community solar-plus-storage project in Massachusetts](#)
 - *Energy Storage News*. While CT's community solar pilot languishes, MA is beginning to integrate battery storage into its program.

SustainableCT Launch

What: *Attend this launch event, the nearest one for most of us in Eastern CT. Learn how you, your municipality, businesses, and community organizations can participate in Sustainable CT, Connecticut's new voluntary certification program to support and recognize thriving and resilient municipalities. [Registration is available](#).*

When: *Friday (not Saturday as was printed last week), January 26, 9:00-10:30am*

Where: *Eastern Connecticut State University (Johnson Community Room), Willimantic*

Protecting Family Farms and Forests

What: *A workshop on conservation easements, the Forest Legacy Grant Program, and more. See the attached flyer.*

When: *Wednesday, Jan 24, 7:00-9:00 pm*

Where: *Knowlton Memorial Hall, 25 Pompey Hollow Rd (Rt 44), Ashford, CT*

Solar Energy for Your House of Worship

What: *A free workshop for Connecticut houses of worship. Learn about several ways that faith groups have financed solar installations. And learn about a new financing program sponsored by CT Green Bank and IREJN. All faith groups welcome. See attached flyer.*

When: *Saturday, Jan 27, 10am-Noon*

Where: *Unitarian Society of Hartford, 50 Bloomfield Ave., Hartford, CT*

CT Green News (12-29-17-Issue 44)

- [Solar Project In Simsbury Clears Key Regulatory Hurdle](#)
 - *WNPR.* It will create enough clean energy annually for about 5,000 homes.
- **Joint Principles on Net Metering Reform in Connecticut**
 - *The Acadia Center.* ECGA signed onto this letter on how to reform net metering in CT (see attached). In the draft Comprehensive Energy Strategy, DEEP proposed a system used only in one other state, Maine.
- [Con Edison seeks 'non-pipe' solutions to address peak gas demand](#)
 - *Utility Dive.* Our neighboring state of NY is taking a different approach to peak gas demand. We in CT should take note that there are other solutions than building more pipelines.
- [3 offshore wind developers submit proposals for Massachusetts target](#)
 - *Utility Dive.* CT needs its own offshore wind program, so ECGA is working with the CT Roundtable for Climate and Jobs to support its [offshore wind campaign](#).
- [Willimantic Whitewater Park seeking public input on art](#)
 - *The Bulletin.* A new park with renewable energy art. A community forum on Jan 17 at ECSU.

CT Green News (12-8-17-Issue 41) MEETING CANCELLED

Monthly meeting tomorrow is CANCELLED due to snow.

- [Clean energy slashed in new budget](#)

- *Yale Daily News*. A clear article detailing the raid on funding for the Energy Efficiency Fund, Green Bank, and Regional Greenhouse Gas Initiative in the recent budget. Really short sighted.
- [Solar farm on former E. Windsor landfill to benefit S. Windsor taxpayers](#)
 - *Hartford Business Journal*. This will save the town money, produce tax revenues, use a former gravel pit, and reduce emissions.
- [New Weston Board of Selectmen approves \\$15k to hire solar energy consultant](#)
 - *The Weston Forum*. Does your town need this kind of consultant?
- [State budget won't impact school solar projects](#)
 - *The Ridgefield Press*. "The ZREC funding is secure, as in the end it is a contract between Eversource and the investor and is not dependent on the state budget,..."
- [Major energy corporation takes over proposed Brooklyn-Canterbury solar project](#)
 - *Norwich Bulletin*. If the project is approved by the CT Siting Council, the 50 MW project could provide clean electricity for about 8,000 homes and about \$7million in taxes for the town of Brooklyn.

Eastern CT Green Action October Meeting **CANCELLED**

What: *Our monthly meeting. Charlie Weedon give a presentation, 'What's a Watt?'. If you're a little sketchy on the difference between power and energy, a kilowatt and a kilowatt hour, and a megawatt vs. a kilowatt, this talk is for you.*

When: *Saturday, Dec 9, 10:00-11:30am*

Where: *Buchanan Auditorium, Mansfield Public Library, 54 Warrenville Rd., Mansfield Center.*

Who: *All are welcome*

CT Green News (12-1-17-Issue 40)

- [SustainableCT: Local Actions, Statewide Impact](#)
 - *SustainableCT Website*. SustainableCT is now up and running. It's a roadmap of voluntary actions that will help municipalities be more sustainable. This program can help us as we try to move our towns towards using more clean and efficient energy. Please get to know the website and plan on attending one of the [information sessions](#) near you. At our January meeting, we will start discussing the implications of SustainableCT.

- [Can taxing pollution pay for infrastructure improvements?](#)
 - *WNPR*. “Rebuilding America’s infrastructure is an idea lots of politicians embrace. But how to pay for it can be tricky. Now, one Connecticut congressman is suggesting a possible solution: taxing pollution.”
- [New Solar Panels to Power About 4% of Campus Electricity](#)
 - *News at Southern (SCSU)*. “Southern Connecticut State University will soon be the new home for over 3,000 photovoltaic solar panels. The culmination of over two years’ planning, the renewable energy project will generate over a million kilowatt hours of electricity annually and will be installed with no capital investment or up-front cost by Connecticut taxpayers.” And what about UConn?
- [CT antes \\$2M more for EV buyers](#)
 - *Hartford Business Journal*. Good news for the transition to electric vehicles.
- [Critics Fault Eversource For Proposing Business Fees Be Charged To Ratepayers](#)
 - *Hartford Courant*. “It’s wrong and it’s a bit of an unrecognized scandal in the industry...”

Eastern CT Green Action October Meeting

What: *Our monthly meeting.*

When: *Saturday, Dec 9, 10:00-11:30am*

Where: *Buchanan Auditorium, Mansfield Public Library, 54 Warrenville Rd., Mansfield Center.*

Who: *All are welcome*

CT Green News (Thanksgiving, Issue 39)

Happy Thanksgiving to You and Yours!

Thanks to all who made our TAKE NOTE! benefit concert such a great success. We filled the church. We could not have done it without the many people who helped. A special thanks to all the members of TAKE NOTE!, who so generously gave their time, talent and voices to assist our organization and delight everyone who heard their music.

CT Green News (11-10-17-Issue 38)

- [Northeast pipeline controversy exposes gas markets as 'a recipe for chaos,' researchers say](#)
 - *Utility Dive*. The CT Public Utility Regulatory Authority has launched a 'full blown' investigation.
- [ACEEE State Energy Efficiency Scorecard: ID, FL, VA Three Most-Improved States, MA Still #1](#)
 - *ACEEE*. Connecticut scores well on energy efficiency (EE). Will we continue to after cuts to EE programs in the new budget?
- [Why Some Landfill Owners Invest in Solar](#)
 - *Waste360*. Solar on a portion of the Hartford landfill generates enough electricity to power about 1,000 homes.
- [With Christie Out, New Jersey Poised To Rejoin New England In Climate Pact](#)
 - *WNPR*. A Connecticut story? Yes, because we are part of RGGI, too.
- **A letter to Commissioner Klee concerning off-shore wind.**
 - *CT Roundtable for Climate and Jobs*. See **attached** and stay tuned.

- [Off-Shore Wind Needs to be Part of the Draft CES \(Comprehensive Energy Strategy\)](#)
 - **CT Roundtable for Climate and Jobs.** In the draft CES, the CT Department of Energy and Environmental Protection (DEEP) fails to support the development of off-shore wind in southern New England. Take a minute to let DEEP know that we need a bolder plan by signing onto the CT Roundtable's letter. Must be submitted by September 25, 4pm.
- [Offshore Wind: the Future of Electricity in the United States](#)

- *Electric TV.* This video is the next best thing to going out on a boat to see the Block Island wind farm. MA, RI and NY are making large commitments to off-shore wind and will benefit from more jobs and less greenhouse gas emissions. CT needs to join them.
- [Glastonbury Town Council Bans Fracking Waste](#)
 - *Hartford Courant.* And the city of Hartford also recently banned fracking waste. Now we need a statewide ban.
- [Deal struck on stabilizing profits of Millstone nuclear station](#)
 - *CT Mirror.* “An MIT study concluded that two-thirds of the U.S. nuclear power capacity will become unprofitable in the coming years, but that Millstone was the most profitable plant in the U.S”.
- [Could Cuts To Regional Cap-And-Trade Program Send Bad Message To Business?](#)
 - *WNPR.* The Regional Greenhouse Gas Initiative ([RGGI](#)) cuts emissions, reduces electricity bills and creates jobs. Diverting its funds to balance the budget is short sighted.
- [Siting Council Reviews Simsbury Solar Proposal](#)
 - *Hartford Courant.* “We all need to do our part to address climate change.... Future generations will thank us for this project.”

Announcements

We Need Your Help

Volunteer to represent Eastern CT Green Action at upcoming events. We need folks to set up, hand out pamphlets, and close down. No special qualifications required. Contact Annie Perkins, <abcperkins@gmail.com> for more information. Here are the opportunities:

- *Willimantic Downtown Country Fair, Sat, 9/30, 10am-4pm*
- *Take Note! A concert to benefit ECGA in Mansfield Center, Sunday, 11/19, 3pm*

Help us grow ECGA. We can't do it without you!

Mansfield Light Bulb Swap

What: *Bring 5 traditional bulbs and get 5 LED BULBS FREE! Plus speak with energy experts about how you can save money and make you home more comfortable. See attached flyer for more information.*

When: *Saturday, October 28, 10am-2pm*

Where: *Mansfield Community Center, 10 South Eagleville Rd*

NOTE: Volunteers needed to hand out light bulbs. Contact Ginny Walton at waltonvd@mansfieldct.org or 860-429-3333.

CT's Clean Energy Future: Protecting the Climate, Sustaining Communities

What: John Humphries is the organizer for the CT Roundtable on Climate and Jobs (a collaboration of labor, environmental and religious groups) and serves as a member of the Governor's Council on Climate Change. This interactive presentation will include: CT's long history of bi-partisan leadership on climate; how we can put people to work protecting the climate; and current opportunities for organizing and advocacy.

When: Monday, October 2, 6:30pm

Where: [CT Audubon Society](#), 218 Day Road, P.O. Box 11, Pomfret Center, CT 06259

CT Green News (9/15/17-Issue 30)

- [We need a stronger CES in Connecticut](#)
 - *Clean Water Action*. Good summary of concerns about the draft Comprehensive Energy Strategy and links for submitting a comment. Take a few minutes to let the Department of Energy and Environmental Protection know that we need a bolder plan. Must be received by September 25, 4pm.
- [CT greenlights major renewable projects](#)
 - *Hartford Business Journal*. Utility scale projects are a welcome addition to CT's renewable portfolio. The state now needs to encourage more rooftop, or 'behind the meter', solar instead of stifling it, as DEEP proposes to do in its draft Comprehensive Energy Strategy.
- [Sterling Municipal Light Dept. Energy Storage System](#)
 - *Clean Energy Group*. Terrific video explaining how the first municipal-scale energy storage system in MA will work. Other towns in MA are planning similar projects. When will a CT town do this?
- [Letters: Millstone Mum On Finances](#)
 - *Hartford Courant*. More skepticism about Millstone, from some of its competitors.
- Notes from the 9/9/17 ECGA monthly meeting are attached.

Rally at the National Governor's Association Meeting

What: Over 30 US governors will be converging on Providence for the National Governors' Association's summer meeting from July 13-16. So some folks have organized a rally in Providence to call on our governor(s) to take urgent action on climate change—specifically, to ban fracking, stop all new fossil fuel infrastructure, and commit to a just transition to 100% renewable energy by 2035. For more details, click [here](#).

When: Saturday, July 15, 12:15-1:30pm.

Where: Outside the RI Convention Center in Providence.

NOTE: Maria Tulman of ECGA is planning to go -- would be happy to share a ride. Contact her at tulmanmar@gmail.com.

The CT Legislative Special Session is Coming

The [special session](#) is coming sometime soon. Though the focus will be on passing a balanced state budget, lawmakers can address other issues such as Millstone, raids on the Energy Efficiency Fund and RGGI, and Lead by Example (decreasing the energy used by State of CT buildings). Stay tuned, the game isn't over yet. We may need to let legislators know again that voters care about these issues.

A Presentation: It's Our World

What: *Learn what is being done to save our world & what you can do to participate in environmental activism. Sponsored by Eastern CT Resistance. For more information click [here](#).*

When: *Thursday, June 29, 6:45pm*

Who: *Dr. David Bingham, co-chair of the League of Conservation Voters.*

Where: *Saxton B. Little Free Library, Columbia, CT.*

Solar Seminar and Site Visit

What: *A seminar and tour of the large solar array on the roof of C-TEC's headquarters. C-TEC is a major solar installer in CT. For more information, see the attached flyer.*

When: *Saturday, June 24, 2pm*

Where: *1 Griffin Rd South, Bloomfield, CT.*

Say NO to the elimination of the Council on Environmental Quality!

From the Connecticut Land Conservation Council:

As you know, the Governor's budget proposes ZERO funding for the [Council on Environmental Quality](#) (CEQ), and [H.B. 7051](#), a budget implementer bill, repeals Connecticut General Statutes section 22a-11 (the statute establishing CEQ) and removes all references to CEQ from the statutes.

LAST MONTH, we asked you to submit testimony to the GAE Committee and to contact your legislators asking them to oppose the elimination of CEQ; and **YOU RESPONDED! THANK YOU!**

NOW, the fate of CEQ rests with the leadership of the [Appropriations Committee](#), which is reviewing subcommittee reports on budget items; and **WE NEED YOUR HELP AGAIN!**

Please contact the leadership of the Appropriations Committee and ask that they restore funding to the CEQ budget.

With rollbacks of federal environmental laws and drastic cuts proposed to the EPA budget, it has never been more important to **STAND UP** for the agencies that protect our environment and public health right here at home. Thank you **AGAIN** for taking action!

ACTION: Contact the following leaders of the Appropriations Committee and ask that they restore funding for CEQ.

Senator Paul Formica, Co-Chair: Paul.Formica@cga.ct.gov

Senator Catherine Osten, Co-Chair: osten@senatedems.ct.gov

Representative Toni Walker, Co-Chair: Toni.Walker@cga.ct.gov

Representative Melissa Ziobron, Ranking Member: Melissa.Ziobron@housegop.ct.gov

MESSAGE:

- I oppose the elimination of CEQ.
- CEQ is the state's only independent environmental watch-dog agency.
- Since 1971, CEQ has provided the public with objective and independent oversight of the state's environment efficiently, effectively and at minimal cost (\$174,000) to the state.
- Acting through its volunteer council and just two staff, with limited support from DEEP for administrative purposes only, CEQ services include: The Environmental Monitor (project information for the public under the CT Environmental Policy Act and for notices of proposed transfers of land), Annual Reports on Environmental Quality, Special Reports (most recently, "Energy Sprawl in Connecticut" ...), monthly meetings and an opportunity for citizens to lodge complaints and otherwise voice concerns.
- There is likely no state agency that does so much for so little.
- For the sake of our environment and public health now and for future generations, please restore funding to the budget for CEQ.

Please cc your legislators. (Find your legislators and their contact info [HERE](#)). **Please bcc** abpaterson@ctconservation.org

Announcements

1. A FRACKING WASTE ACTION for Monday

*The statewide ban has **CLEARED** the Environment Committee, so **LET'S REACH OUT TO OUR LEGISLATORS** again and let them know that we want to see this bill move forward in the full legislature.*

CALL or E-MAIL your CT State Representative and CT State Senator.

a) Let them know you support HB 6329

b) Ask them to CO-SPONSOR HB 6329

Look up your two state legislators here:

https://openstates.org/find_your_legislator/

Make contact even if you think your legislator will not support HB 6329 and even if you have contacted them before. Likewise, do not assume your legislator supports the bill; check this list of the bill's current co-sponsors (if your legislator is already listed, call or e-mail to thank them):

- Rep. Tami Zawistowski, (R) 61st Dist.
- Rep. Scott A. Storms, (R) 60th Dist.
- Rep. David A. Baram, (D) 15th Dist.
- Rep. Matthew Lesser, (D) 100th Dist.
- Rep. Josh Elliott, (D) 88th Dist.

- Rep. John K. Hampton, (D) 16th Dist.
- Rep. Devin R. Carney, (R) 23rd Dist.
- Rep. Susan M. Johnson, (D) 49th Dist.
- Rep. Chris Soto, (D) 39th Dist.
- Rep. Brandon L. McGee, (D) 5th Dist.
- Rep. Patrick S. Boyd, (D) 50th Dist.
- Sen. Heather Bond Somers, (R) 18th Dist.

Thank YOU, fellow CT residents, for, as Senator Kennedy said to Dagmar at the public hearing, "keeping this issue on the front burner". This is how it is done.

2. Saturday, March 25, at 6:30 PM, *Green Hair Company* in Putnam will host a FREE screening of the film "*Merchants of Doubt*"!

Organic, vegan (and delicious!) snacks will be provided by Heirloom Food Company! Refreshments will also be provided; however, we encourage you to BYOB (Bring Your Own Beverage) and your own cup, mug, or water bottle.

The screening will be followed by a discussion led by Charlie Weedon. The event will conclude at 9 PM. Space is limited. As of today (3/17), there are less than ten tickets remaining. ADVANCE REGISTRATION IS REQUIRED. Please reserve your seat via <https://MerchantsofDoubtPutnam.eventbrite.com/> by 6 PM, March 24th.

EVENTS

Briefing on Clean Energy Opportunities in 2017 CT Legislature

What: A legislative briefing on energy and climate opportunities in Connecticut, plus Legislative Action 101/202. Review of energy legislation and opportunities for clean energy breakthroughs including shared solar, virtual net metering, energy efficiency in public buildings, strengthening the Regional Greenhouse Gas Initiative, and more. Legislative action tips and strategies, and an opportunity to write a letter to your legislator. Gear up for an effective season!

When: Tuesday, March 14, 7:00pm.

Where: Town Council Chambers, Audrey P. Beck Municipal Building, 4 South Eagleville Rd, Mansfield CT, 06268

Who: Speakers from Clean Water Action, Sierra Club, CT Fund for the Environment

Brought to you by the Mansfield Sustainability Committee and Eastern CT Green Action.

Now is the time to say NO to fracking waste at the state level. **Write an email** to envtestimony@cga.ct.gov by Monday 3/13 to comment on PHB 6329 (put this in Subject line). Make a difference!

Screening of Film, "Merchants of Doubt" in Putnam

On Saturday, March 25, at 6:30 PM, Green Hair Company in Putnam will host a free screening of the film "Merchants of Doubt." Organic, vegan snacks will be provided by Heirloom Food Co.

Refreshments will also be provided; however, we encourage you to BYOB (Bring Your Own Beverage) and your own cup, mug, or water bottle.

The screening will be followed by a discussion, which will conclude at 9 PM.
Space is limited. ADVANCE REGISTRATION IS REQUIRED.
Register via <https://MerchantsOfDoubtPutnam.eventbrite.com/> by 6 PM, March 24th.

Pomfret Fracking Waste Ban

WHO: Citizens of Pomfret and surrounding towns, YOU are Invited!**WHAT:** Presentation and discussion, to be led by Jennifer Siskind of the Connecticut chapter of Food & Water Watch, about the dangers of waste from hydraulic fracturing (also known as fracking) and why Pomfret and other Connecticut towns need to be concerned and act quickly to pass local legislation. This event is free, and everyone is welcome. Donations appreciated for travel expenses for our guest speaker. She is volunteering her time for this presentation.

WHERE: The Connecticut Audubon Society Center at Pomfret, 218 Day Road, Pomfret Center, CT 06259

WHEN: Thursday, March 23 at 7:00 PM

WHY: Close to a dozen Connecticut towns have already passed or are in the process of passing ordinances to ban the storage, use, and disposal of fracking waste. At Pomfret's Annual Town Meeting this spring, Pomfret residents will have an opportunity to do the same. In order to provide accurate information and respond to questions on the subject, all interested residents are invited to this meeting.

QUESTIONS? Please, email PomfretFrackingWasteBan@gmail.co

Make a difference on Lobby Day, 2017

The CT Chapter of Sierra Club, Citizens Campaign for the Environment and Consumers for Sensible Energy have organized a clean energy lobby day on Wednesday, March 8, in Hartford!

Join in calling upon Connecticut lawmakers to get our state off of fossil fuels and to invest in clean, renewable energy. Tell your legislators why you care about Connecticut developing clean wind and solar energy, and not shackling our state dirty oil and gas for decades to come! Advocate for:

- Growing CT's Renewable Portfolio Standard
- Expanding solar programs and distributed generation
- Repealing Connecticut's unfair ratepayer pipeline tax

Help make an impact this session by turning out to ask legislators to support these important issues. **Organizers will be on hand to help you find and communicate with your Senator and House Representative.** This event is open to the public and all are encouraged to attend, so please invite your friends and family! We can win big for clean energy this year but we need your help!

When: Wednesday, March 8th, 10:00am – 2:00pm

Where: Legislative Office Building, 300 Capitol Ave, Hartford, CT (meet in hearing room 1C @ 10am)

Please **RSVP** by emailing CCE Program Director, Lou Burch: lburch@citizenscampaign.org

We hope to see you there!

A Special Notice

Eastern Connecticut Green Action (ECGA) has recently been awarded a \$5,000 grant from the Center for Health, Environment & Justice (CHEJ). We want to congratulate and thank Cathy Cementina from Coventry for doing the lion's share of the work on the grant, which will help fund ECGA's efforts to assist at least nine more towns in our region to pass bans on the storage, use and distribution of fracking waste in their municipalities. The grant will support outreach efforts to

engage as many local citizens as possible in activities such as petitioning, attending town meetings, and voting -- leading up to the passage of fracking waste bans or ordinances. Currently, there are a total of ten towns in Connecticut that have passed fracking waste bans. With CHEJ's grant, ECGA is confident it will bring that total closer to 20.
