EDUCATION

Chair	RICHARD KNITTEL, Prime Power Systems rknittel@primepower.com
Vice Chair	PAUL FELD, Penn Power Systems pfeld@pennpowersystems.com
Secretary	GREG WALTERS, HOTSTART INC. gwalters@hotstart.com
Board Liaison	MICHAEL POPE, EGSA Director of Education m.pope@EGSA.org

The Education Committee will be meeting at our EGSA Spring Conference in Kissimmee, FL. The conference theme this year is “Power Your Imagination.” I would like you to attend our meeting so that your voice, opinions, and ideas can make us a better organization.

But please know this, I’m biased.

I became a member of EGSA because of the hard work and imagination of the people who have been contributing members of this committee in the past. They spearheaded the Technician Certification Program, the Onsite Power Generation guide book, and the George Rowley School of On-site Power Generation. The recently formed Load Bank Certification Committee is a spin-off from this group. These are all accomplishments that define this organization and contribute to shaping a better industry. Although each of the committees offers a chance to contribute and make our industry better, I am convinced that the heart and soul, the change makers, and the definers of the organization are the members of the Education Committee. If you want to be a part of something that has a genuine impact on the profession, come join us. You will be sincerely welcome and we look forward to you bringing your own brand of cleverness.

Richard Knittel
Prime Power Systems
2017 EGSA Education Committee Chair
