<b>Secretary</b>	This position is open at this time
<b>Board Liaison</b>	This position is open at this time

Greetings Everyone;

EGSA's Newest Committee, the Technical Oversight Committee (TOC), has hit the ground running! Join us on Sunday, March 19th in Kissimmee, FL for our inaugural meeting.

The Technical Oversight Committee (TOC) wants to let everyone attending our 2017 Spring Conference to know that if you are interested in joining them for their inaugural committee meeting that you won't have much competition for scheduling. The TOC is going to begin by meeting on the first day we arrive, Sunday March 19th, from 3:00 pm until 4:00 pm. Unless you are a member of the EGSA Technician Certification Committee (which is a closed meeting that meets on Sunday of each Conference from 1:30 pm until 4:00 pm), then you are free and clear to participate, just make sure you get to the Gaylord Palms hotel in time enough to participate in this afternoon meeting!

What is the Technical Oversight Committee? Glad you asked!

The TOC was formed to provide the EGSA industry with technical articles and videos on matters that effect the power generation industry. With a target audience for policy makers, customers, and EGSA members. In our first meeting we will be reviewing the current Bio-diesel topic and setting up a plan for the next few months for technical articles and videos.

Look forward to seeing you in sunny Florida!

Dan Bigelow
