

# From the Desk of John Svendsen

## CODES & STANDARDS SURVEILLANCE

**Chair** JOHN SVENDSEN, Woodward, Inc.  
John.Svendsen@woodward.com

**Vice Chair** ROBERT SIMMONS, Seismic Source Int'l.  
res@seismic-source.com

**Secretary** STEVE OXTOBY, Kohler Power Systems  
Steve.oxtoby@kohler.com

**Board Liaison** STEVE SAPPINGTON, Caterpillar  
sappisr@cat.com

The Codes & Standards Surveillance Committee will conduct a comprehensive review of the standards that effect the onsite power industry. Whether you are in sales, engineering or corporate management, the information presented – and the opportunity for influence – regarding the IBC, UL, NFPA, IEEE and more will enhance your conference experience. We will also hear from active Working Group that has been addressing UL 200 and will have a guest speaker from UL, Mr. George Langton, who will speak on the harmonization of UL2200 and CSA.

In preparation for the meeting, we ask that you review Herb Whittall's "Codes & Standards" articles in recent issues of *POWERLINE* magazine, and that you review the minutes from our Fall Conference in Sacramento so that we can expedite the spring meeting.

See you in Kissimmee!

John Svendsen  
Woodward, Inc.  
2017 EGSA Codes & Standards Surveillance Chair
