

Aggregate Summits

This spring NCAA and NCDOT will again be jointly hosting three Aggregate Summits. These summits have been a great opportunity for NCAA and NCDOT to discuss current issues related to the aggregate industry. The summits will also include a tour of the quarry. Below are the dates and locations for this year's Summits:

May 3 – Vulcan's North Quarry

May 16 – Martin Marietta's Benson Quarry

May 24 – Harrison's Dillsboro Quarry

Chris Peoples, with NCDOT, will be encouraging NCDOT Division personnel to attend. So, if you work with the local Division staff, please plan to attend.

Look for more information in the coming weeks about these Summits.

Thanks to Vulcan, Martin Marietta, and Harrison for hosting this year's summits.
