## **Confirmation Individual Service Project Guidelines**

Each Confirmation student must complete an individual community service project (or projects) developed from his or her own particular talents and interests. The individual community service must first pass an approval process in which the Confirmand presents their individual community service idea by turning in a Service Activity Proposal Form to Pastor Ben. This Service Activity Proposal Form is then reviewed by Pastor Ben to determine appropriateness. If it is determined appropriate, the candidate will be notified and may then proceed with the service. Upon completion of the individual service project the member then turns in the Service Activity Verification Form to verify the service was completed (to be handed in by the end of Confirmation instruction on April 10<sup>th</sup>, 2019).
