

**Preserve DACA (Deferred Action for Childhood Arrivals):**

Reports are saying that President Trump may revoke the Dream Act of 2017 (S.1615/H.R.3440). This is not a partisan issue: 71 to 75 percent of voters, and dozens of Republicans in Congress, don't want President Trump to revoke DACA.<sup>2</sup>

Please call your members of Congress right away! Ask them to do everything in their power to pressure President Trump from revoking DACA.

It's best to speak in your own words, but here are some points to get you started.

My name is \_\_\_\_ from (your city). I oppose President Trump's attempt to target immigrant kids and want DACA to remain in place. More than 70% of voters, both Republicans and Democrats, want young immigrants protected from deportation. 800,000 kids are in imminent danger of being stolen away from their homes and deported by President Trump. Will the representative/senator do everything they can to pressure the White House to keep it in place?
