

Rhonda Vinson Brown – *Associate Degree, 2005*

A Registered Nurse and Family Nurse Practitioner, Rhonda received her start in the medical field at WCJC, earning a Licensed Vocational Nurse (LVN) certificate followed by an Associate of Applied Science Degree in Nursing.

Rhonda later obtained a bachelor's degree from the University of Houston-Victoria and then her master's degree in science and nursing from Texas A&M-Corpus Christi.

“WCJC is a great place to start your college degree,” she said. “Wharton is a small country town within 20-30 minutes of many other small cities and towns and provides an opportunity for local students to start their careers and still be within close proximity to their home.”

One of Rhonda's notable accomplishments was winning the Texas Healthcare Association's Director of Nursing of the Year award in 2012.
