Continuing Education Information

Total CE hours offered: 4.0 hours

Continuing education credits issued for participation in the CE activity may not apply toward license renewal in all states. It is the responsibility of each participant to verify the requirements of his/her state licensing board(s).

The North Carolina Dental Society is an
ADA CERP recognized provider.

ADA C·E·R·P® Continuing Education
Recognition Program

and PACE PROVIDER 219263

The North Carolina Dental Society is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual activities or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between the North Carolina Dental Society and 1st District NCDS Dental Society.

Directions to the Mission Health / A-B Tech Conference Center

Coming off of Biltmore Ave: Turn **RIGHT** (if headed south) or **LEFT** (if headed north) onto **Hospital Drive**

At the first light, make a **LEFT** onto **Victoria Road**

Go straight through the light at the top of the hill (Mission Hospital entrance on the left)

Go past the A-B Tech sign for Roberson Building (on right), Hemlock Building (on right). Immediately after Hemlock Building, on the right will be the Smith McDowell House.

Just past the Smith McDowell House, make a **RIGHT** onto **Fernihurst Drive** at the **A-B Tech sign for “Conference Center, Coman Student Center, Maple, Chestnut”etc.**

Go up the small hill and the **Conference Center will be in front of you**

Go past the Conference Center and park either in the parking garage or the lot adjacent to the entrance to the parking garage

Exit the parking garage on the Conference Center side, or walk up from the parking lot between the Conference Center and parking garage (go towards the red sign for: AB Tech Police)

Under the covered walkway are 2 double doors; enter the doors on the right

Coming off of Meadow Road: Turn **LEFT** onto **Victoria Road**, just over railroad bridge

Go under the pedestrian overpass

Make the **3rd LEFT** onto **Fernihurst Drive** at the **A-B Tech sign for “Conference Center, Coman Student Center, Maple, Chestnut”etc.**

Go up the small hill and the **Conference Center will be in front of you**

Go past the Conference Center and park either in the parking garage or the lot adjacent to the entrance to the parking garage

Exit the parking garage on the Conference Center side, or walk up from the parking lot between the Conference Center and parking garage (go towards the red sign for: AB Tech Police)

Under the covered walkway are 2 double doors; enter the doors on the right

A-B Tech Address:

340 Victoria Road

Asheville, NC 28801

Conference Center Information: (828) 398-7901

For updated information on inclement weather/school closing/delayed opening/general information: (828) 398-7900 or www.abtech.edu

About the Speakers and Programs

Yeah, I See That, But Now What Do I Do Now? Dr. Jim Rokos, UNC School of Dentistry

2.0 hours CEU

Course Description: A review of pathology commonly encountered in the general practice setting, as well as some advice for handling commonly encountered conundrums.

Dr. Jim Rokos

Dr. Rokos attended Duke University and received a Bachelor of Science degree in Zoology in 1983. He worked in the Developmental Neurobiology Laboratory at the prestigious Salk Institute in LaJolla, California until he entered the University of North Carolina Dental School in 1986. Before graduating in 1990, Jim was inducted into the Dental Honor Society (OKU) and awarded both the UNC Oral Pathology Award as well as the AAOP Pathology Award. He furthered his education by completing a General Practice Residency in 1991 at the Audie Murphie VA Hospital in San Antonio, TX.

After enjoying 3 years providing public health dentistry, and 14 years in private practice, Jim entered into his oral & maxillofacial graduate training at the University of North Carolina School of Dentistry. He earned his Master of Science in Oral & Maxillofacial Pathology and was the recipient of the William Shafer Award from the American Academy of Oral & Maxillofacial Pathology in 2010.

Dr. Rokos is board certified by the American Board of Oral & Maxillofacial Pathology. He held the position of Associate Professor in the Department of Oral Medicine, Oral Pathology, and Oral Radiology at the University of Missouri's School of Dentistry in Kansas City, and enjoyed being a partner in the UMKC oral pathology laboratory practice. Jim still holds an appointment of Clinical Adjunct Professor at UMKC.

Dr. Rokos is the director of the **Oral Pathology Laboratory of the Carolinas** and has a full-time general dentistry practice in Albemarle. He has lectured extensively on all aspects of oral pathology, and enjoys living in Stanly County, NC with his wife, Laura, and his twin sons, Nick and Connor.

Non-invasive Therapies for Altered Sensation, Dr. Ceib Phillips – UNC School of Dentistry

2.0 hours CEU

Course description: The potential for injury to sensory nerves in the orofacial region during dental and oral and maxillofacial procedures is of particular concern due to the proximity of the nerves to the surgical sites. More than a million people in the U.S. are thought to suffer from such iatrogenic, surgically-associated injuries to the trigeminal nerve. Numbness or other altered sensations of the face or lips generally resolve reasonably quickly but the presence of these sensations can negatively impact a patient's perception of recovery. Recently, we have shown that simple facial exercises the patient can do at home/work can improve patients' accommodation to these sensations and also reduce what the patient may perceive as the negative impact of these sensations on daily life activities. And we have preliminary evidence that vitamin B12 may be helpful in accelerating nerve recovery.

Course Objectives: 1. Describe the effect of demographic, clinical, and psychological factors on patient-reported pattern of recovery 2. Learn the sequence of facial exercises used in the Sensory Retraining Trial 3. Describe the difference between accommodation and nerve recovery

Dr. Ceib Phillips

Dr. Phillips is a Professor in the Department of Orthodontics at the University of North Carolina School of Dentistry. She received her Ph.D. in Anatomy at the University of Wisconsin in Madison in 1976 and her M.P.H. in Biostatistics at the University of North Carolina in 1990.

Dr. Phillips currently holds memberships in such organizations as the American Statistical Association, Biometric Society, and the American Association for the Advancement of Science, the American Association for Dental Research, and the Society for Clinical Trials and is on the editorial board of JOMS, J Dent Hyg and Patient Preference and Adherence. Her research interests focus on biostatistical applications and data management of clinical trials. She is the principal investigator for a NIDCR grant, "Sensory Retraining following Orthognathic Surgery, and an investigator on a second NIDR grant, Functional Outcomes of Cleft Lip Surgery. She is also the director of the data coordinating center for a multi-center project on management of patients with third molars funded by the American Association of Oral and Maxillofacial Surgeons.
