

Welcome to Jaguar Aquatics!

Jaguar Aquatics is divided into five smaller training groups to better serve the athletes. Each team has at least one USA Swimming Certified Coach on deck to teach, train, and motivate. Below is a brief description of each group:

Bronze Team

Bronze Swimmers primarily focus on body control and balance in the water as well as learning the basic techniques of swimming the four competitive strokes: butterfly, backstroke, breaststroke, and freestyle. The swimmers learn how to listen and respond to instructions from coaches and prepare for and participate in meets. The criteria for joining the Bronze team is the swimmer must be able to stay afloat and be comfortable in deep water.

Silver Team

Silver Swimmers continue to focus on body control, the four competitive strokes, as well as starts, turns, and small training sets to develop aerobic capacity. The swimmers continue to focus on listening to instructions from coaches, prepare for and participate in meets. Silver swimmers also perform simple math via counting laps, calculating sets, and reading the pace clock. The criteria for joining the Silver team is the swimmer must be able to swim freestyle and backstroke, and have a basic understanding of breaststroke and butterfly.

Gold Team

Gold Swimmers continue focus on body control, the four competitive strokes, turns, starts, training sets to develop aerobic capacity. In addition to listening skills, preparing for and participating in meets, simple math, the athletes set and track goals for the season and learn about race strategies. The criteria for joining the Gold team is the swimmer must be able to swim all four strokes.

Gold Elite Team

Gold Elite Swimmers continue to develop swimming technique, but the primary focus changes to aerobic capacity and race strategies. In addition to the basic life skills developed in the other levels, the athletes learn self-discipline and training techniques. The criteria for joining the Gold Elite team is the swimmer must be proficient in the four strokes and have a base of aerobic capacity.

Senior Team

Senior Swimmers are usually in the end of middle school or high school and primary focus on developing aerobic capacity, strength training, technique, and race strategies. The athletes learn how goal setting, discipline, and practice impact personal performance. The criteria for joining the Senior team is the swimmers must be proficient in four strokes and have a base aerobic capacity.

The Natatorium

Jaguar Aquatics is very fortunate to utilize the IU Natatorium on the campus of IUPUI as a practice facility. Both the instructional pool and the main competition pool are used for practices. Jaguar Aquatics is the only team in the state that gets the opportunity to practice in the same pool as many Olympians and National champions.

Away Swim Meets

JAGS athletes have the opportunity to compete at swim meets at other facilities. We attend other meets about once a month. Athletes are not required to compete at these swim meets; however, it is an excellent opportunity for them to get out of the comfort of the Natatorium and compete against other teams.

Hosted Swim Meets

Jaguar Aquatics hosts three swim meets over the course of calendar year. Two of those meets take place during the Short Course season (September through March) and the other is held during the Long Course season (April through July). The primary purpose of these meets is to allow the athletes an opportunity to compete in a world class facility against local and regional competition. The secondary purpose is to raise funds for the team. By hosting meets, Jaguar Aquatics families do not have to do any outside fundraising. However, in order to successfully run these high caliber meets, it takes help from our parents. The parent volunteer requirements are explained in the Parent Contract section of the registration packet.
