

# NEW PLEASANT HILL LIBRARY

## STUDENT DESIGN CHALLENGE

### What does your dream library look like?

Our community is planning to build the new Pleasant Hill Library. We want *everyone* to help us imagine the library of the future. This month, Mayor Harris has announced a **Student Design Challenge**

All youth living in Pleasant Hill or attending P.H. schools (K-12 grades) are invited to work individually or in groups of up to 4 to submit a design:

- Use media of your choice to create a visual rendering (2D or 3D).
- Submissions should include a narrative description under 1,000 words.
- Students in grades K-5 are challenged to focus their design on the children's area of the new library.
- Students in middle school and high school are challenged to focus on the teen area of the library.

One outstanding design in 5 separate age categories will be chosen and a cash prize of \$200 will be awarded to their schools from the Friends of the Library. Questions? Contact [phl@ccclib.org](mailto:phl@ccclib.org).

Bring your submission to the Library at 1750 Oak Park Blvd by **October 31st, 2017** with the completed form below.

All submissions and any reproductions become property of the library.
