Important Information Regarding Driver's Ed

Education and Vehicle codes make distinctions between Driver Education and Driver Training. Driver Education refers to the 30 or more hours of classroom instruction a student must complete with a qualified instructor (EC Section 51851). Driver Training refers to the minimum of 6 hours of behind-the-wheel training a student must complete with a qualified instructor in an approved vehicle (Vehicle Code 12814.6). Individuals cannot take the Driver Training until they have completed the Education portion.

Upon successful completion of this course, students will receive a Certificate of Completion mailed directly from the National Driving & Traffic School (this takes between 5 – 7 business days) Students will need to take the original Certificate to their high school registrar to receive 2.5 elective credits (however do not leave your original with the school). This is an important document. If you should lose your certificate, you will need to order a duplicate through your online account. The company will charge you \$20.00 for a replacement.

Additionally, it is the parent's/student's responsibility to go to the DMV for their learners permit test. Students must be **15 ½** to apply for learners permit and must bring their **original** Certificate of Completion. It is the parent's responsibility to register their child for the Behind-the-Wheel training required to obtain their driver's license.
