

# Cancer Research Training Internships In Global and U.S. Minority Settings

Previous CEESP Students & Faculty

## THE CANCER EPIDEMIOLOGY EDUCATION IN SPECIAL POPULATIONS (CEESP) PROGRAM

CEESP provides funding for students to travel and conduct summer research in U.S. minority and global settings. Amount awarded is based upon each applicant's research project and its associated costs for a period of up to 15 weeks during the summer of 2018. The program provides a stipend/subsistence to cover travel and living expenses in the domestic or foreign research sites.

Previous internships have been conducted in Ghana, Tanzania, Malawi, Uganda, Morocco, Egypt, Kenya, Tunisia, Zambia, Cyprus, Peru, Mexico & the United States.

This program is funded by a research training grant from the National Cancer Institute.
