

We are looking for a part-time bilingual/bicultural research assistant to assist with recruiting and conducting interviews in Spanish for an NIA study on Hispanic Caregivers of persons with Alzheimer's and related dementias. Research assistant will be conducted qualitative, open-ended interviews in the homes of caregivers, consenting participants, recording accurate notes, transcribing interview recordings, and coding data.

Qualifications: Fluency in Spanish (both written and oral), familiarity with qualitative research methods, good communication skills, and attention to detail of research protocols.

Preferred: MPH or graduate students in MPH program.

If interested, please contact Iveris Martinez at [imartine@fiu.edu](mailto:imartine@fiu.edu) or 305-348-0622.
