

The New York State Psychological Association's Adult Development & Aging Division presents:

Gray Pride: The Challenge of Positive Aging

Featuring Internationally Renowned Speakers: Drs. Kenneth and Mary Gergen

The “Positive Aging” movement serves as a challenge and a corrective to pervasive ageist stereotypes, distortions, prejudices, and discriminatory practices. Drawing on scientific research into resilience, social adaptation, neurogenesis and neuroplasticity, “Positive Aging” scholars debunk fraudulent assumptions about later life, confront age-bias in social attitudes and public policy, promote intergenerational solidarity and advance longevity with dignity and pride.

If you know anyone who's aging... come join us. There's a lot to learn.

Date: Sunday October 1, 2017

Fordham University: Lincoln Center Campus
