**Morning Session - Passive Fire Protection - 8:00 am - 12:00 Noon**

This session will discuss IBC Chapter 7, NFPA 101 Chapter 8, and NFPA 221, where fire-resistive construction is used to satisfy requirements for Type of construction, Compartmentation, Separation of buildings and building areas.

Included will be proper use of assemblies such as: fire barriers, fire partitions, smoke barriers, horizontal assemblies, and fire walls with focus on buildings in industrial occupancies and related occupancies.

---

**Afternoon Session - Fire Protection Systems - 12:30 pm - 4:30 pm**

The discussion will focus particularly on Fire Alarm and Automatic Sprinkler Systems which are required by the Codes and are used in conjunction with the installation standards of NFPA 72 and NFPA 13. & 13R.

An overview of these systems is included and will also discuss application of these provisions, and specific requirements from other sections of the Codes that requires their use.
