Share the Ride – Organize Carpools for Your Group

Travel Pal is a great tool for understanding your Personal Mobility Patterns - where you go and how you get there - (driving alone, bicycling, walking or taking the bus). It's also a fantastic way to find a carpool match for your trips to and from reoccurring meetings and groups – just like yours. Why not organize carpooling or alternative ways for your group's members to get to the next meeting. You can post them at:

Have you ever considered the benefits of carpooling or taking Metro to and from a regularly scheduled meeting or activity? Each are great ways to save money and time while doing your part to make our communities a little greener. Each carpool takes at least one car off our busy roads cutting Green House Gas Emissions while saving each person gas money through splitting the cost of gas and parking. Of course, it's nice to save a few dollars, however, one of the biggest perks is that carpool participants save time – sometimes, venues offer preferred parking for those that carpool and you can imagine the travel time saved while traveling in the HOV Lanes! Travel Pal will put a little more money in your pocketbook and, ultimately, can save you time in the busy bumper-to-bumper traffic.

How does it work? Well, it's as easy as 1,2,3!

1. Visit the Travel Pal Events page at: <https://southbaytravelpal.com/#/events>
2. Click on the Event you're interested and you'll be linked to a new page where you can learn more Travel Information about the event.
3. To learn about your travel choices simply add the address for your "Starting Location" and hit the green "Let's Go!" button!!

From there you'll get directions to the event, transit information, carpool matches as well as bicycling and walking information – If you're not already a member, you'll be prompted to join Travel Pal. Once you're logged in you can post information about your next meeting or activity and help your organization your group to carpool!! It's free, it's fun and it's a great way to learn more about your transportation choices to events as well as to organize and communicate transportation and parking information about future events.
