ABOUT TC SINGS!

TC Sings! is an inclusive choir community, welcoming all voices and all people, singing songs from a variety of world cultures and traditions in three- and four-part harmony. Everything is taught orally; there is no need to read music, and no previous singing experience is required.

Our choir is a member of the Ubuntu Choirs Network, which seeks to create a world in which we listen deeply to those around us, celebrate diversity, trust in our voices, and bring them forward on behalf of harmony, justice, and peace. "Ubuntu" is a Zulu word which expresses the concept "I am because you are".... we are connected to and must look out for one another.

Founder and director, Heather Kingham, is a graduate of the Community Choir Leadership Training in Victoria, British Columbia. Heather is dedicated to putting a song into the heart of every interested person in the Grand Traverse area.

ABOUT FLOW

FLOW (For Love of Water) is a water law and policy center founded in 2009. Their mission is to safeguard the Great Lakes, the planet's largest freshwater lake system and the very lifeblood of the Midwest, by advancing public trust solutions and cutting-edge policy work. Water is our common heritage; it belongs to all of us and is owned by no one. Applying public trust policies to our current threats, FLOW and other partners work together to preserve this heritage and chart a new and better course for our generation and generations to come.
