The Department of Health and Human Services (DHHS), Division for Children, Youth, and Families (DCYF), Bureau of Child Development and Head Start Collaboration (Bureau) is preparing to submit the required Federal Plan regarding the use of the Child Care and Development Fund (CCDF). These Federal funds support working families with low incomes to access child care through the NH Child Care Scholarship Program, and to improve the quality of child care in NH.

On November 19, 2014, Congress reauthorized these funds in the Child Care and Development Block Grant (CCDBG). This reauthorization made sweeping changes, including a paradigm shift from primarily a work-support program to a program that supports family self-sufficiency *and* child development by improving the safety and quality of child care, establishing policies that provide more stabilized funding to child care providers, and ensuring continuity of care for children in high quality programs.

A **draft** of DHHS' response to the FFY 2019-2021 CCDF Federal Plan, "Draft Child Care and Development Fund (CCDF) Plan for FFY2019-2021 (5-21-18)," can be found at: <http://www.dhhs.nh.gov/dcyf/cdb/publications.htm>, along with a PowerPoint highlighting portions of the Plan.
