

# Active Collaborative Training (A.C.T.) Series: Bomb Threat (SCAN) & Active Shooter (CRASE)

Join Child Care Aware of New Hampshire for our 1<sup>st</sup> **Active Collaborative Training (ACT) Series** with regional and statewide experts. **Each year, CCAoNH will be providing two ACT Trainings in New Hampshire on topics pertaining to health and safety.** We recognize that you are all busy establishing strong emergency preparedness plans, thus, this training year's focus is on topics tied to helping you better plan and prepare for emergencies. This December, the topics will be Bomb Threat (SCAN) and Active Shooter (CRASE). The ACT Training Series will be offered each year in December and February in targeted areas tied to established Emergency Preparedness cohorts, but they are open to all. We invite you to participate and delve deeper into these topics.

## Bomb Threat (SCAN)

### The NH State Police Bomb Squad: Your 24-Hour Guardians:

This session will offer a basic description of the NH State Police Bomb Squad's capabilities and typical tasks. **Topics covered will include diagnostic tools, including K9s; bomb threat types and standardized protocols; possible indications of pre-attack planning; suspicious behavior indicators; and basic identification of explosive materials (commercial/military and improvised).**

**Presented by:** Lawrence Lundt, Trooper First Class, State Police Bomb Squad, NH Department of Safety

## Civilian Response to Active Shooter Events (CRASE)

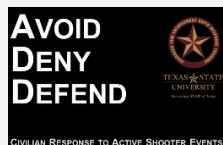

Failure to act quickly during an active shooter event can leave you in a position to be injured or killed. The faster you decide to take action, the more likely you can save your life and the lives of those around you. **Civilian Response to Active Shooter Events (CRASE) Training** will help you to quickly decide to take action by **providing a strategy** that develops your situational awareness, **mental planning** and a **common sense approach to surviving an active shooter event**. CRASE is a U.S. Department of Justice-sanctioned training course developed by Texas State University.

**Presented by:** Detective Rochelle L. Navelski, Community Outreach Coordinator, Portsmouth Police Department.

## Question & Answer Panel

This section of the day offers participants the opportunity to hear from 3-4 child care programs who participated in the Emergency Operations Planning in Child Care Cohorts. **Panelists will speak to their experiences in developing their Emergency Operations Plans**, drafting their Continuity of Operation Plans and practicing response action drills in their program. This is a great opportunity to hear what other programs are doing, barriers when planning, successes of the planning process followed up with the opportunity to ask questions. This is a great way for participants to walk away with a variety of ideas to use in their own programs.

## Training Information

Saturday, December 1, 2018  
8:30 am - 3:30 pm\*

Great Bay Community College  
320 Corporate Drive  
Portsmouth, NH 03801
