## SURROUND YOURSELF WITH KEY FINANCIAL LEADERS IN LTC AND SKILLED NURSING

Join us at the first annual executive capital (ECAP) summit, an event that will attract some of the strongest transactional influencers in healthcare from across the country.

Imagine motivated banks, lenders and brokers coming together with owners and operators for one-on-one networking sessions, a golf outing and other activities designed at their core to help build new, highly-productive relationships. It's your unique opportunity to engage in direct discussions with financial decision-makers from across the long-term care and skilled nursing spectrum.

Beyond the strong connections you can build in this community, there will be educational events providing access to some of the brightest minds in the business. Topics include:

- A panel discussion on the untapped dollars and operational hacks that will enhance your facilities' collections immediately.
- A panel discussion focusing on the acquisition boom that has occurred over the last three years, evaluating the current landscape, and what environment buyers will be facing in 2018.
- A panel discussion with sb2 inc.'s CEO/Managing Partner, [Chad Bogar](#), evaluating how the current Medicare/Medicaid eligibility and reimbursement environment impacts the revenue sphere of LTC and skilled nursing facilities, an analysis of the tactics employed by state agencies, including MCO's and MAP's, and the most successful strategies to ensure every dollar owed is collected.

Join us in Miami, Florida on February 11th-13th and make ECAP Summit the cornerstone of your long-term fiscal strategy in 2018 and beyond.

### WHAT

The first annual ECAP Summit. Access the most influential leaders in healthcare.
