

## Message from our General Manager, Dr. Tom Quarles

“Howdy”! Wishing all a pleasant and prosperous summer season. We are currently working through all of our summer events and gearing up for probably the largest number of fall events that the Expo has ever had. Our Phase III construction project is now coming along nicely and we are hoping to have it completed before the Brazos Valley Fair & Rodeo is held October 20-22, 2017. We are also currently in the process of doing some major improvements to our parking lots. It’s hard to believe that the Expo is now 10 years old. Several faulty areas in the parking lot are being saw cut, old asphalt removed and patched with new asphalt. After patching, the entire parking lot will be “fog sealed” black and then all lots and interior roads will be restriped.

As mentioned before, the expansion will allow us to book larger events, multiple/larger events on the same days and will primarily improve the overall capacity/quality of the facility for our dirt type events which includes livestock shows, horse shows, other types of equine events (large barrel racing events, large team roping events, rodeos and several other events such as circus, monster truck, concerts, etc. The upgrade in both LED lighting and sound will have a major impact on the quality of the experience that our guests receive while they are at the Expo.

Please check our event calendar, on the Expo website, [www.brazoscountyexpo.com](http://www.brazoscountyexpo.com), to remain up to date with the volume/type of events that we are having at the Expo.

During the third quarter of FY17, April through June, we hosted many great events.
