

Dear Friends of the Autism Think Tank, NJ,

Our annual fundraiser will be held at Trump National Golf Club in Bedminster, NJ on April 21, 2017.
We hope we can count on your support this year!

The Autism Think Tank, NJ (a 501(c)3 non-profit organization), brings together six renowned medical experts in autism from Harvard's Massachusetts General Hospital, Boston University Medical School, and UCLA, who collaborate with physicians on medically complex cases of autism around the world. Through medical videoconferencing, our experts provide access to specialized medicine in rural and underserved communities that are lacking properly trained specialists to care for this complicated population. Using telemedicine, The Autism Think Tank physicians offer their clinical expertise in a fast and cost-effective manner, saving families from unnecessary travel and costly medical expenses, while providing individuals with better access to the healthcare they need.

Located in Warren, NJ, the Autism Think Tank, NJ, serves 1000 individuals annually through medical videoconferences, educational workshops for parents and professionals, and safe, sensory- friendly, family events.

Since 2011, The Autism Think Tank, NJ:

- sponsored dozens of medical videoconferences for medically complex children and adults with autism in the U.S. and abroad with our team of distinguished physicians
- donated a videoconferencing center, provided staff training, and conducted developmental screenings at Haven International Learning Center in Ghana, to help families in underserved regions of Africa
- coordinated international psychosocial and educational workshops for families and professionals
- donated medical equipment to the DLC schools, in Warren and New Providence, NJ, creating "doctor's office" labs, helping students with autism overcome their fear of medical procedures and exams
- presented to 20 researchers and professors from Shandong University in China, visiting the U.S, to learn about the state of autism and healthcare in our country
- hosted annual sensory-friendly carnivals with the Warren Lions Expo and the Hillsborough Rotary Club
- sponsored winter sessions at the Bounce Factory to offer children with autism and their siblings an opportunity for exercise and play in a safe, inclusive environment
- sponsored annual toy drives and family holiday parties with "autism friendly" Santa and Elves.

Autism rates in NJ are as high as 1 in 41 children, and shockingly, 1 in 26 boys. Autism is costing our nation nearly \$300 billion dollars per year on education, medical and support services, housing and specialized care. Our goal is to improve the medical and psychosocial stabilization of the child and family so that all children have an opportunity to lead happy, healthy, meaningful, and productive lives. We rely on the generosity of our friends, families, and communities, to offer our services to families in New Jersey and around the world. Opportunities for sponsorship and donations are enclosed.

Sincerely,

Sheri A. Marino, MA, CCC-SLP
Executive Director

Dr. Paul Abend
Founder and Medical Director
