Important Guidelines

- C26 Double Dollars will count for the 2017 President's Club cycle.
- C1 Double Dollars will count for the 2018 President's Club cycle.
- Double Dollars will **not** count towards leadership sales or earnings levels
- Double Dollars will **not** count towards the Presidents Recognition Sales Increase Points Program
- Double Dollars are **not** added to a Representative's Award Sales base when comparing history year over year for the purpose of earning PC points for sales increase. However, these dollars are added to the Representative's Award Sales base for the purpose of identifying the Representative's sales achievement level and ranking for recognition at the annual Presidents Recognition Tribute events
- To check the status of how much you have been awarded in Double Dollars, check the 'About this Order' section of your invoice – it will include the exact amount of Double Dollars you were awarded. The amount is also reflected in your Recognition statement on the line that says 'You're Cycle-to-Date Sales this Cycle'.
- Please be aware that while Double Dollars will be earned on your online store orders, your invoice statement will not reflect these Double Dollars. They will be added to your account before the close of the campaign.
- For end of cycle reports, there is no separate column in the report that lists Double Dollars. All Double Dollars will be included in the current cycle-to-date sales report
- For LABC's, both personal and LABC accounts will be eligible for this incentive
