FORD CERTIFIED COLLISION CARE PROVIDERS

To face accelerating technological change, Ford owners are more aware than ever of the importance of having the right collision repair performed in order to restore their vehicle back to manufacturer specifications. And, the best way to ensure the vehicle's fit, finish, durability, value, and safety is to have the repairs made with the right parts, by Certified Collision Repair Providers who have invested in the right tools, equipment, and training.

The Ford National Body Shop Network provides owners this destination. As part of the Ford National Body Shop Network, we identify and promote only those Certified Collision Repair Providers capable of properly repairing Ford and Lincoln vehicles to manufacturer specifications. It also puts your Certified Collision Repair Shop in a league of its own with the exclusive credentials and the distinction of being Ford Certified.

WHAT'S NEW?

Ford and Assured Performance are working together to continuously improve the network. Recent enhancements include:

- ✓ Improved Ford Consumer Marketing emphasizing the National Body Shop Network
- ✓ Technical Training - A technical proficiency assessment will be used to ensure courses are required only for skill gaps
- ✓ Ford Collision Incentive Opportunities exclusive to the National Body Shop Network
- ✓ Improved Dealer Business Development Support
- ✓ Special Ford Dealer Pricing
