

GREEN APPLE DAY OF SERVICE

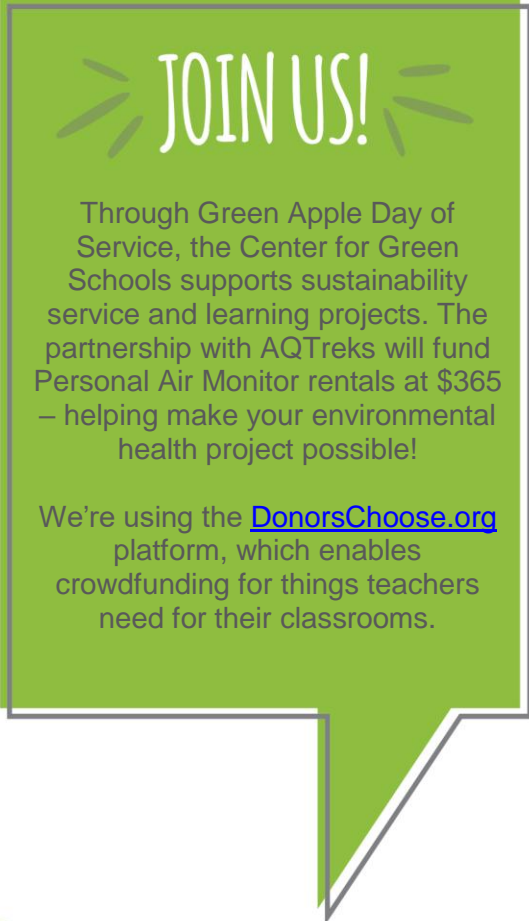

The first 15 public schools to complete the steps below will receive a free, three-week Personal Air Monitor rental. Don't wait, register now to make sure your school receives funding!

The Center for Green Schools at USGBC is excited to be partnering with AQTreks to support air quality and healthy school projects. Through the Green Apple Day of Service program, we are donating \$365 to **15 public school teachers** (first come, first serve) who complete the steps below. The funds will pay for a three week rental of the Personal Air Monitor!

The first **15 public school teachers** to complete the following steps will receive a \$365 donation to rent the AQTreks PAM equipment:

1. **Visit AQTreks.com:** Go to aqtreks.com/rent-pam and note the time frame you would like to receive the PAM. The rental period needs to take place during the Spring 2018 semester.
2. **Register with DonorsChoose.org:** Create an account with DonorsChoose.org.
3. **Register with USGBC's Greenapple.org:** Create a USGBC login at www.greenapple.org/secure-access.
4. **Register Your Project:** Return to www.greenapple.org/secure-access and click on "Create a Project". Fill out the fields to register your AQTreks project (you will add the DonorsChoose.org project ID later).
5. **Hold Your Breath:** We will contact you to let you know if you made it in time to be one of the first 15! We will also instruct you on the next steps to getting your PAM rental funded and purchased.

Don't worry! If you aren't one of the first 15 to register, you are still eligible to receive up to \$200 in matching Green Apple funds from the Center for Green Schools to support the PAM rental or other materials. Simply complete the steps outlined above and we will be in touch with you with further instructions.

JOIN US!

Through Green Apple Day of Service, the Center for Green Schools supports sustainability service and learning projects. The partnership with AQTreks will fund Personal Air Monitor rentals at \$365 – helping make your environmental health project possible!

We're using the DonorsChoose.org platform, which enables crowdfunding for things teachers need for their classrooms.
