

MEMORY LOSS?

Is memory loss a problem for you or someone you love?

CLINICAL TRIAL OPPORTUNITY

Consider joining our clinical trial that may improve your memory, focus, mood and sleep.

This study is noninvasive and uses no medications or drugs. There is no placebo group; so if you qualify, you will be receiving an active memory treatment at no cost to you.

If you are between the ages of 55 and 85 and experience memory lapses at least once a day, contact us to see if you qualify.
