Treatment Resistant Depression & ECT (Electroconvulsive Therapy)

Dr. Tatyana Shteinlukht
Psychiatrist and Head of ECT (Electroconvulsive Therapy) At UMass-Memorial Hospital

Discussion:

- The current use of ECT to treat severe and chronic depression
- For whom is ECT appropriate?
- How many treatments are required?
- What are the possible side effects?
- What is the rate of success?
- How does ECT interact with medications?

Tuesday, March 21 from 7:00 PM to 9:00PM
