

> CareerSafe® Cyber Safety Awareness Training Series

Public is the new Private

95%

of teens use the Internet

78%

of teens have a cell phone (47% have a smartphone)

80%

of teens have been bullied online

88%

of teens have witnessed online bullying

17%

of teens who committed suicide were bullied online

The CareerSafe® Cyber Safety Awareness Training series was developed in response to an ever-growing cyberspace presence of teens and their adoption of technology at an unprecedented pace. The freedom to share information with and about each other anytime and any place has exposed teens to new vulnerabilities and dangers. This training series intends to give teens basic safety awareness and knowledge to interact and communicate safely online.

Training Series

The training series provides students with basic awareness training to recognize and respond to situations related to cyber safety, cyberbullying, sexting, and texting and driving. With the progress of each course, the content rises in maturity and complexity of topics.

Real-life Situations

Each course is designed to contain interactive, scenario-driven modules that encourage smart decision making. Students experience relevant real-life situations and understand the consequences of their responses to each scenario.

Train Your Entire School

This training series can be purchased individually per student or as a school site license. Administrators will have access to a student management system to track student progress and maintain student records.

Cyber Safety Awareness Training Course Descriptions and Modules

The CareerSafe® Cyber Safety Awareness Training series covers the importance of protecting yourself online, cyberbullying, sexting and texting and driving. Our programs are 100% interactive, online and self-administered. The training program consists of four safety awareness training courses that involve interactive scenario-driven modules that are engaging so teens can experience relevant real-life situations to encourage smart decision making. Each course also contains valuable additional resources for teachers, students and parents.
