Aftermarket Scan Tools and Cybersecurity

Presented in person by
Joey Hendrich and Mike Muck

WHO IS THIS TRAINING FOR:
*Shop Owners, Managers
and Technicians*

Tuesday, September 18, 2018

Dinner: 5:30 pm

Training: 6:00 pm - 8:30 pm

LOCATION:

AE Tools

Enter Through Shipping and Receiving
1601 E Park Street
Olathe, KS 66061

\$25 for MWACA Members

\$40 for non-members

Includes dinner & training

Join us together with AE Tools at their new state-of-the-art headquarters to learn more about the OEM and Aftermarket Scan Tools. Topics include:

- Cybersecurity measures vehicle manufacturers are implementing and how this will affect your business.
- Limitations of aftermarket scan tools and what tools you are going to need to succeed.
- Discover how you can upgrade your shop to dealer level tools and open your marketing strategies to brand new business opportunities.
- Learn information to help guide your shop to into the future of the next generation of auto repairs.
- Question and Answer session to help solve some of your diagnostics, programming, and security issues.
- BONUS!! Tour our new location to see what AE tools & Computers does for the aftermarket. Learn how a partnership with AE Tools & Computers can make a lot more money for your shop.

This is an event you don't want to miss. Register today!
