This hands-on OSHA training is designed for shop owners and managers to take a tour of an ASA-member shop to identify safety issues and possible OSHA violations. Scenarios will have been set up to provide attendees with a real-life learning opportunity to strengthen their knowledge to make their own shops safer while also preventing possible OSHA violations and fines.

After concluding the "safety tour" of the shop, attendees will gather for training by retired OSHA representative, Todd Sieleman, to discuss the "findings" and learn the "do's and don'ts" that you need to know to make your shop safer and avoid fines.

Attendees will also learn more about the new ASA-Midwest online training that will be available for your employees to receive their required annual training free for all ASA-Midwest members.
