Tires— There's More Than Meets the Eye

Even if you don't sell tires at your facility, you could still be liable!

Come join us to learn about how to protect yourself and your customer when it comes to the safety of tires. Topics discussed are policy/procedure on checking tires, proper tire procedures, insurance coverage gaps you may not know about that leave you exposed, necessary disclaimers or release of liability, and much more.

Don't miss this opportunity to reduce your exposure, increase your customer safety and satisfaction, as well as how you can educate your customers.

OSHA Hands on Training
presented in person by Todd Sielman

This hands-on OSHA training is designed for shop owners and managers to take a tour of an ASA-member shop to identify safety issues and possible OSHA violations. Scenarios will have been set up to provide attendees with a real-life learning opportunities.

Retired OSHA representative, Todd Sielman, will lead us in training to discuss solutions to make your shop safer and avoid fines.

Attendees will also learn more about the new ASA-Midwest online training that will be available for your employees to receive their required annual training free for all ASA-Midwest members.

Increasing Efficiency
presented in person by Ron Haugen, Westside Auto Pros

The technician shortage is real. Many shops are and have been recruiting without success. But the cars keep coming, people are impatient, and the work is stacking.

Slow techs? Not producing? Seem like they take too long on the job?
Does this sound like your shop? Maybe or only during peak months?

If so, this workshop is for you. Real world solutions, implemented and perfected by the instructor in his own shop and in use today, as well as trained and implemented at many shops across the country are covered.

Come spend an evening and get your shop tuned up and running like a well-oiled machine.
