This class provides your shop a digital process to effectively measure & manage employee productivity, efficiency and effective labor rate to improve shop profitability.

In this class you will learn

- Measure and manage your technicians' productivity and efficiency
- Determine your effective labor rate to make sure your service advisors are charging properly and not discounting too much
- Compare your techs' performance against established quotas and goals
- Help you find the hidden labor profits in your business, without the need to add staff, or spend money on advertising or equipment
