Managing Your Repair Shop's Risks with Customer Loaner Vehicles and Employee Driving Policies

Presented in person by Brad Hazelwonder, Federated Insurance

Learn about the risks and potential exposures when providing loaner vehicles to your customers. Attendees will come away with procedures that should be in place within your shop to reduce your liability. But your risks don't stop with your customers! Learn how to protect your business from misuse of company and customer vehicles by your employees. Risks include distracted driving, cell phone usage, unauthorized passengers in vehicles, following laws and general usage regulations. Come away from this meeting with valuable information and forms to immediately begin using for both customers and employees.
