

# SplashForward

*Advocating for a Bellevue Community and Aquatics Center*

Revitalizing prior SPLASH efforts, *SplashForward* advocates for a Bellevue Community and Aquatics Center with state-of-the-art recreation, 50-meter competition, dedicated deep-water, and therapy pools for residents of all backgrounds, all abilities, and all ages.

## We Need School Aquatics Advocates

*Show your strong support to the Bellevue School District and the City of Bellevue!*

Bellevue is the only district in Western Washington without an indoor pool. While focusing on the community as a whole, we are working to deliver the necessary competition and training facilities for **all** Bellevue School District aquatics teams.

We **need leaders** from each BSD High School swim, dive and water polo teams to:

- **Identify coaches, parents and students to speak briefly** in front of the School Board and Bellevue City Council.
- **Message** the cause to other aquatics supporters.

*SplashForward* will **provide guidance and talking points** while you bring your personal stories to life.

- Despite producing state champions...
  - BSD meets are at 8:30pm on Mercer Island...
  - ... and teams practice outside in the cold
- Daily driving migration significant impact for training & homework schedules.
- Swimmers also often miss class for away meets or are unable to attend
- Dive and water polo programs have severely stunted growth

## Bellevue School District Board Meeting

*Tuesday in Early February (exact date/time TBD)*

Stay tuned in by 'liking' us on Facebook or email us [splashforward@outlook.com](mailto:splashforward@outlook.com).

SplashForward will hold a meeting (Date TBD) with all interested parties to coordinate.

# We do not just want a pool...

*Our vision includes a design-forward, community experience for everyone*

## *“Great Places You Want to Be”*

Families of Bellevue - American, Indian, Asian, and Everywhere - gather in the delightful energy and surprising spaces of a modern Community, Culture and Aquatics Center.

Water, wellness, fitness, and fun take center stage. Innovative technology illuminates each. Athletes, patients, families and friends - of all ages, of all backgrounds - are welcome.

Raucous crowds cheer final relays of hotly-contested meets among rival Bellevue schools. Crowds of kids migrate every day. Swimmers swim. Divers dive. Everyone splashes. Everyone smiles.

Therapeutic waters deliver exceptional experiences for medical clients, veterans, and more. Confidence, community and joy for those with disabilities. Old-world healing blooms with modern technology and technique.

With fast-growing, world-class communities, Bellevue needs amazing spaces. For this, water is the platform; water is life.

*\*matching Bellevue City Council's vision*
