

Norton's Rail Trail Needs a Name!

The Alternative Transportation Committee is making great progress working with BETA Engineering planning our Rail Trail.

WE NEED YOUR HELP!

***The time has come to think of
an appropriate name for our trail.***

Norton's Rails to Trails Path will provide a 10-12 ft. biking/walking path alongside a 5-6 ft. equestrian path. It will be ideal for cycling, family walks, jogging and horse-back riding. It will connect the

Mansfield Commuter Rail to the Myles Standish Industrial Park passing through Norton's woodlands and meadows.

Ideas: Town History, Natural History, Native American History, Railroad Heritage or other - the committee will make the final decision.

Send your suggestion and the reason for your suggestion with contact information to: railtrailnorton@gmail.com

Individuals or groups may make suggestions until May 28, 2018. Visit our website for more information: nortonrailtrail.weebly.com and like us on Facebook
