

THE CANADIAN CENTRE FOR  
FOOD INTEGRITY

# Food System Forum Series

## Genetics and our Food

From Genes and GMOs to CRISPR  
What's new? What's coming?  
What do you need to know?

Maple Leaf Foods 'Think Food' Centre

6897 Financial Drive, Mississauga, ON

**Tuesday, August 21, 2018**  
**9:00 a.m. to 4:30 p.m.**

### OBJECTIVES:

#### **This Forum's Objectives:**

- To provide a base level of understanding of genetics – from traditional breeding through to the newest forms of technology in our food – in use today and coming in the future

#### **Food System Forum Series Objectives:**

- To host a forum for connecting, dialogue and information sharing for food system executives
- To share research and insights related to public trust in Canadian food and farming
- To provide timely and credible information on complex food system issues as part of an ongoing series

### WHO SHOULD ATTEND:

- Leaders from retail, foodservice, and food companies with responsibility for brand, marketing, procurement and sustainability
- CCFI Members
