

## In the Spotlight...

---

**Our Mission** – The Mission of Greylock Federal Credit Union is to be a community credit union that partners with you and provides the keys to enrich your life.

**Our Background** – The history of Greylock Federal Credit Union dates back to the mid-1930s in Pittsfield, Massachusetts when it began as the Pittsfield G.E. Employees Credit Union.

The Great Barrington branch, opened on November 3, 2003 and at the time was Greylock's tenth branch in Berkshire County. The Great Barrington location, celebrating its fifteenth anniversary this year, has grown to become a solid financial resource for residents of Southern Berkshire County. In addition to providing a full line of financial services to the community, the Great Barrington branch has supported numerous charities and non-profit organizations around the area. Greylock fosters a culture of volunteerism and encourages their employees to donate their time in the name of stewardship.

**Our Blueprint for Success** – At Greylock Federal Credit Union we treat our members like they own the place, because they do. Greylock fulfills its vision of helping our community to thrive by offering a full line of banking, insurance and investment products and services. We are also committed to the financial wellness of our community, offering member education classes on topics ranging from budgeting to buying a first home, to identity theft and more. Classes are held at local employers/agencies and at Greylock. A financial literacy program designed for teachers and students provides free financial education programs in our community's schools. Greylock also has new lending programs for financially underserved members.
