

SPIRIT BALLOONING

Hot Air Balloon Rides in Connecticut, Western MA and Eastern NY

Our Mission – To share the unforgettable and unique experience of lighter than air flight.

Our Background – Spirit Ballooning was established by Darrel and Laurie Long in 2009 after flying planes, gliders, and balloons since 1987. Our children grew up immersed in the ballooning community—crewing for us and dreaming of becoming pilots themselves. As a commercial pilot and flight instructor, starting a business offering scenic flights, aerial advertising, and other balloon related services was a way to share our family experiences with others.

Our Blueprint for Success – We emphasize a unique, personal experience with every one of our chartered champagne balloon flights. No matter what age or background you are coming from, when you fly with us you become more than just a passenger, sharing in our family’s adventures and stories. Ballooning offers an extraordinary viewing experience of the quaint hamlets and verdant hills of the wonderful Southern Berkshires and is guaranteed to create lasting memories. Whether new to the area, or have lived here all your life, the lofty perspective of lighter than air flight is the best way to see the region.

Balloon flights make a terrific gift for all occasions and our pilots and crew are committed to going the extra mile to make any day a truly special one. We also offer commercial advertising with our balloon-side banners, promotional events as well as educational hands-on presentations.
