A very warm welcome to this year's THE LONDON INVESTOR SHOW sponsored by Fidelity International and Seven Investment Management.

Thank you for joining us here today - you'll find a packed schedule in place; from interesting seminars on topics ranging from "How to avoid a £20k tax bill" (7IM, Conference Room 1, 12.45 pm and 3.00 pm) to "Technical tools for traders - what the pro's use" (STA, ShowCase Theatre, 2.35 pm) through to an exclusive look at the potential Aramco IPO (Stephen Clapham, Conference Room 1, 1.30 pm).

Highlights of the London Investor Show 2017

Justin Urquhart Stewart gives the **KeyNote Speech*** ("How to make a million in 20 minutes" at 11.10 am in the Main Auditorium), on behalf of Seven Investment Management who have kindly sponsored the London Investor Show 2017 for the second year. You can meet Seven Investment Management on Stand No A1.

Tom Stevenson, from headline sponsors, Fidelity International, talks at 10.35 am in the Main Auditorium, with the **Welcome*** to the London Investor Show and his talk entitled "Seven ways to turn uncertainty into opportunity". Fidelity are offering one-on-one sessions with delegates on their stand no B1 (as well as free coffee!).

Don't miss Rodney Hobson's interview with **Justin Packshaw** - mountaineer, philanthropist, entrepreneur and ex-officer in the British Army. A slightly different type of speaker for the London Investor Show, but one which we hope can enlighten and encourage you to view your investment goals as achievable, given the right tools. 2.45 pm, Conference Room 2.

And finally, a very sincere thank you to all of the outstanding speakers taking part today - please take a minute to read their profiles later in this Guide. As always, I wish you a successful and insightful day at the London Investor Show. I have had the pleasure of speaking with many of you personally over the past few weeks and look forward to meeting you.

With best wishes,

Lisa Campbell
Managing Director, Investor Conferences (UK) Ltd
Organisers of the London Investor Show

PS: Don't forget to collect your free book from Harriman House! Visit Harriman House on Stand No A3 and choose from an investing or trading title - one for each delegate at the London Investor Show.

*Due to unprecedented demand, both of these talks will be broadcast LIVE into the ShowCase Theatre (from the Main Auditorium). If you are unable to attend in the Main Auditorium, please take a seat in the ShowCase Theatre.

WELCOME TO THE LONDON INVESTOR SHOW FROM SEVEN INVESTMENT MANAGEMENT

We're very pleased that you could join us for today for what promises to be a full day of presentations, workshops and lots of information. Everything is aimed at giving you the latest investment news and views.

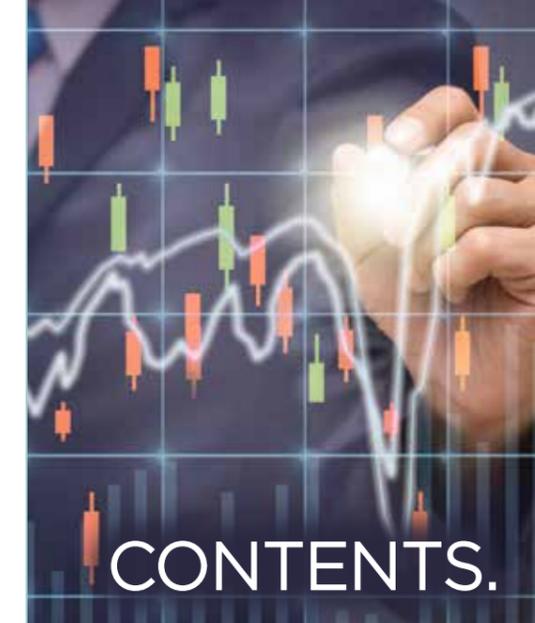

At Seven Investment Management, we believe that you have to keep up-to-date with what's happening in the world, both politically and in financial markets, because you are financially responsible for funding your retirement years. And with the newspapers mired in hyperbole about Brexit, little else is getting the attention it deserves. So today is an excellent opportunity to ask questions and make sure that you have a plan of how your money will be.

This show is now in its eighth year and over that time has welcomed over 13,000 investors through its doors. Today I'm hoping to meet some people who are new to investing, as well as catch up with some of the more knowledgeable old hands - it makes for a lovely day where we can all learn something new. I am sure that I will!

Justin Urquhart Stewart
Seven Investment Management

“ Thank you for coming. I do hope that I will be able to speak to you in person. I'm around first thing at the Morning Markets Breakfast Briefing at 8:30am, but am also on the main stage at 11:10. Or you can find me and my colleagues at the 7IM stand (A1) and at some of the workshops we're running throughout the day. ”

Welcome to the THE LONDON INVESTOR SHOW

the London
INVESTOR
show

We're really pleased to see you here for what promises to be a packed programme of investment news and views.

Now in its eighth year, the London Investor Show is all about empowering you with the information you need to manage your investments more effectively. It's a philosophy we share at Fidelity Personal Investing and we are delighted to support this year's event.

In today's show you'll have the opportunity to access high quality investment training and education sessions, as well as hear from leading investment professionals and fund managers from across the industry. Whether you're an investment pro or just starting out, I'm confident you'll leave today equipped with all you need to navigate the path ahead.

Investors have never faced such an uncertain environment. From Brexit to Trump, Chinese debt to North Korea, it is hard to imagine a more unpredictable backdrop to managing your investment portfolio. With this in mind, I'll be on stage at 10.35am sharing seven ways you can turn uncertainty into opportunity.

Tom Stevenson
Investment Director,
Fidelity International

“Don't forget to come and see us at the Fidelity stand (B1) for a free coffee and a chat. At our stand you can experience Fidelity Insights in Virtual Reality and pick up a free copy of our latest Select 50 brochure, featuring a list of around 50 recommended funds hand-picked by Fidelity experts from the thousands they analyse each year. Plus, you can find out more about our competition to win an iPad Pro. Winners will be announced at the stand at 4:15pm.”

Have a great day,

”

**Are you on track for retirement?
Are your investments working hard?**

We wanted somewhere we'd be happy to invest our own money, so we set up 7IM. 15 years on, it's still there.

We're investment managers. We help individuals and families manage their money to meet their needs and aspirations. We believe in doing things simply, clearly, cost effectively and well.

Book a wealth review, register for a seminar or find out more.

Call **020 3823 8826**
Email **spectator@7im.co.uk**
Go to **www.7im.co.uk/spectator**

The value of investments can go down as well as up and you may get back less than you originally invested.

Seven Investment Management LLP is authorised and regulated by the Financial Conduct Authority. Member of the London Stock Exchange. Registered office: 55 Bishopsgate, London EC2N 3AS. Registered in England and Wales number OC378740.

FREE SEMINARS

CONFERENCE ROOM 1

- 9:35 - 10:05 HOW TO BANK THE FIRST 30 MINUTES OF THE MARKET OPEN**

The first 30 minutes of the market open is the most volatile. Many traders and big institutions choose not to trade due to the risk. However, there are high probability setups that can be used as a day trader to find the right stocks, enter at the right time, and make bank. Kunal will show you how.

 Kunal Desai, Bulls on Wall Street
- 10:45 - 11:15 HOW CAN TECHNOLOGY IMPROVE YOUR INVESTMENT OUTCOMES?**

Relentlessly low interest rates and high bank charges have got savers worried. What is the best way for them to invest their money? Traditional wealth managers have long offered the same service, characterised by high fees and a high investment minimum. Scalable Capital, Europe's leading digital wealth manager, offers investors a new and improved way of building their wealth. By using technology at the heart of its investment process, it offers fully managed ETF portfolios to enable stress-free, long-term investing. Its dynamic risk management methodology optimises portfolios for every individual client.

 Adam French, Scalable Capital
- 11:20 - 11:50 ACHIEVING AND MAINTAINING FINANCIAL INDEPENDENCE**

Dr David Brown is a medical researcher with several major inventions to his name. At the age of 40, he decided to learn how to invest to take control of his life. He achieved financial independence in his early 50s, allowing him to stop full time work and pursue the life he wanted. He co-founded Monthly Investor to help other private investors achieve the same goal - and he shares his experience with you today in this insightful seminar.

 Dr David Brown, MonthlyInvestor.co.uk
- 12:00 - 12:30 DIRECT LENDING - THE BENEFITS TO THE BORROWER AND THE LENDERS**

Spend some time with Nicola Horlick as she discusses how direct lending brings multiple benefits to both parties.

 Nicola Horlick, Money&Co
- 12:45 - 1:15 HOW TO AVOID A £20K TAX BILL**

Join Michael Martin from Seven Investment Management as he explains how to avoid a potential tax bill of £20k or more.

 Michael Martin, Seven Investment Management
- 1:30 - 2:00 ARAMCO- THE WORLD'S LARGEST EVER IPO?**

An IPO of Saudi Aramco in late 2018 at a valuation of \$2 trillion (tn) has been widely trailed in the Press. Although the recent appointment of the man behind the flotation, Mohammed bin Salman, as Crown Prince has increased the impetus for a float, there are multiple angles for investors to consider. Join Stephen Clapham, who has researched Saudi Aramco extensively, and who will discuss the valuation, the risks for investors and whether or not you should consider investing. Stephen will take questions from the floor and each delegate will receive a hard copy of the latest Research Report on Saudi Aramco, from Hardman & Co.

 Stephen Clapham
- 2:15 - 2:45 HOW TO TURN MIEDIOCRE TRADES INTO KILLER HIGH-REWARD MONSTER TRADES USING A LITTLE KNOWN TECHNIQUE FOR STOP PLACEMENT**

Join Will Hunting as he demonstrates how to turn what would be a mediocre trade into something a lot more profitable ...

 Will Hunting, Cresco
- 3:00 - 3:30 HOW TO AVOID A £20K TAX BILL**

Join Michael Martin from Seven Investment Management as he explains how to avoid a potential tax bill of £20k or more.

 Michael Martin, Seven Investment Management
- 3:45 - 4:15 FINDING LONG TERM VALUE THROUGH STRUCTURAL GROWTH**

Growth is an important factor for long term value creation. Companies use various strategies to grow their business. They can grow by taking market share, by acquiring other companies or by selling more products in existing portfolio. Out of all these, selling more products by operating in fast growing market is the most important strategy. I would be presenting top structural growth trends. These trends include digitisation of cash, urbanisation, and growing obesity. I would analyse the drivers behind these trends and present quality businesses that are well positioned to benefit in the long run.

 Junaid Malik,
- 4:15 - 4:50 THE EVOLUTION OF SOCIAL MEDIA**

Presenting Steemit as an investment case running on the cutting edge technology of the Blockchain. As Blockchain Technology begins to re-shape the dynamics of the global capital markets, Steemit is at the forefront of the next generation of Social Media. Powered on the Steem Blockchain, this new form of social media cryptocurrency is set to turn social media on its head. A world that will see social media content creation correctly verified, validated, evaluated and distributed on the Blockchain, locking in valued growth in Steem.

 **steemit**

Stephen Kendal, Dylan Leighton & Matt Starkey, Steemit

CONFERENCE ROOM 2

- 10:20 - 10:50 PROPERTY VERSUS SHARES: THE AGE-OLD QUESTION! WHICH ASSET CLASS IS BEST?**

Join Stefan Vadamotoo from NOVA Financial as he weighs up the case for investing in property, versus investing in shares.

 Stefan Vadamotoo, NOVA Financial
- 11:00 - 11:30 THE VECTORVEST METHOD OF WORRY FREE INVESTING**

In this short workshop David Paul and Ray Clark will present the VectorVest "Worry Free" Investment methodology (WFI). The rules are simple, totally mechanical and objective. The technique has been back tested for the last 20 years with great success. The exact rules and the results of testing in the US and UK markets will be presented, along with the current selection of WFI shares.

 David Paul & Ray Clark, VectorVest
- 11:45 - 12:15 THE BILLIONAIRE'S PROPERTY SECRET**

In 2007 we experienced one of the worst financial crashes in history, billions wiped of the value of the stock market, property prices dropped significantly, businesses and individuals went bankrupt at an frightening rate. Living through the last recession should have been a wake up call for everyone to manage their investments more carefully and be financially prepared should it happen again.

Ten years later, what have we learned? ... Not much by the looks of things, many are saying the stock market is dangerously overvalued, the car finance market is a bubble waiting to burst, consumer debt is at record levels higher than 2007 and with Brexit on the horizon the outlook for the economy looks very uncertain. Behind closed doors the financial elite are saying it's a matter of WHEN not IF there is a downturn in the market and it's starting NOW. You may have already started reading about this "slowdown" as they are calling it in the media. Ask yourself are YOU prepared for a downturn? If the market fell 10, 20, even 30% where would that leave you?

ANYONE can make money in a rising market, The Billionaire's Property Secret is understanding how to make money from property in a flat or falling market.

 David Roberts, The House Crowd
- 12:30 - 1:00 GETTING TO GRIPS WITH RETIREMENT**

The introduction of pension freedom in 2015 gave us more choices on how and when we access our retirement savings. But more choice means more complexity and the cost of getting them wrong can be significant. Join us for a look at how to avoid common mistakes and build a retirement plan that is right for you. With a focus on investing in retirement we aim to give you some practical pointers on making the most of your hard-earned savings.

 Richard Parkin, Fidelity International
- 1:10 - 1:40 EGALITARIAN CAPITALISM: A NEW APPROACH TO ECONOMICS**

Egalitarian Capitalism: A new approach to economics where:

 - The market works to give people the economic freedom that comes with savings and investments;
 - People can take more control over their own lives and destiny, and help their families and friends to do likewise; and
 - Young people are helped to achieve their potential through incentivised learning for financial capability.

For too many years we've had to suffer huge economic swings between right and left. It's time to change all that.

 Gavin Oldham, Share plc / The Share Centre
- 2:00 - 2:30 THE VALUE OF MULTI ASSET INVESTING IN A COMPLICATED WORLD**

Bill McQuaker will share with you how he seeks to reduce risk and enhance returns through the appropriate selection of investments to form a well-constructed multi asset portfolio. He will explain what techniques he uses, with a focus on strategic asset allocation, dynamic asset allocation and strategy selection. Also how he constructs an appropriate mix of growth, diversifying and hedging assets to create portfolios with the capability of navigating the ever changing market environment. This may help with constructing your own portfolios, and to appreciate the value of multi asset investing in helping to produce strong risk-adjusted returns.

 Bill McQuaker, Fidelity International
- 2:45 - 3:15 JUSTIN PACKSHAW TALKS TO RODNEY HOBSON**

Join Rodney Hobson as he talk to Justin Packshaw MBE DL - an entrepreneur, philanthropist, ex-British Army Officer, adventurer and the co-founder and CEO of the award winning British luxury fashion label, De Roemer. Justin lives in London with his wife, fashion designer Tamsin de Roemer and their two children.

Not content with conquering Everest, representing his country in sailing competitions, a tour of duty in the first Gulf War, and reaching both North and South Poles, Justin is also a keen advocate on environmental issues, and philanthropy. Rodney will be quizzing Justin about what he thinks, and what he does, to further these causes, and also how an eye on the future will benefit us all - in our personal and professional lives. A different session for the London Investor Show, but one which promises to provide some insight into how we manage ourselves, as well as our money.

 Justin Packshaw

 Rodney Hobson

 Please note that a hearing loop is in operation in Conference Room 1 and 2

Gavin Oldham,

Share Radio & Share Music

Broadcasting 100% online across the world

via www.shareradio.co.uk , www.sharemusic.me

Mobile/tablet apps, @ShareRadioUK @ShareMusicUK

Share Radio is a refreshingly different radio station, designed for those with an interest in money and investment and delivered in a quality speech format - no phone-ins, and not too many adverts! You'll find a wide range of interesting programmes - on the UK and US markets, economics, investment strategy, financial awareness, all interwoven with a variety of topical and feature shows.

We've been broadcasting since November 2014, for 2 years as a conventional DAB station. However we transformed our business model in May 2017 (for more background listen to the BBC Bottom Line on 22nd July 2017)

If you listened to Share Radio on national DAB, the good news is that both Share Radio and its sister channel Share Music (instrumental folk music) continue to broadcast from our studios in Westminster, 100% online and accessible via www.shareradio.co.uk and our Share Radio UK IOS and Android apps. We also sell a very convenient internet radio pre-set for Share Radio and Share Music for just £57.95 inc. VAT.

Listeners are now invited to sign in - just once - with an email address, so that we can make the service more relevant and personal. As a result of sign-in we know who's listening: something which is not possible under DAB transmission. It's interesting to note that BBC iPlayer now also requires sign in, and Tony Hall is on record as saying that he sees the BBC's future online.

Our newsletter continues to go out each week, containing easy access podcast links to the week's fresh programming, and editorial comment. If you're not receiving it, please sign in for audio access - live or podcast - via our Share Radio website or apps, and 'tick' the newsletter box: I can assure you that this is a newsletter worth receiving!

Meanwhile our website includes both our schedule and programme details, and the podcast section contains an archive of nearly 6,000 programmes.

Programme content is really good: from Simon Rose - 'The Bigger Picture' (our political round-up), 'The Week That Was and The Week Ahead' (UK markets), 'Motley Fool Show' (US markets), 'Gadgets and Gizmos' and the 'Business of Film'. Georgie Frost presents the 'This Is Money' show with their editor, Simon Lambert. We've also new programmes from Nigel Cassidy ('Dealing with Divorce') and Ed Bowsher (market comment), Jonathan Davis's 'Talking Money' with fund managers, the Institute of Economic Affairs, Sue Dougan's 'Track Record' and 'Motley Fool'. Meanwhile there's news on the hour and half-hour: both general and business bulletins.

We've also established a new audiobook production agreement with Harriman House and launched our first audiobook 'Superinvestors', from which we are now streaming a chapter each week (of 20 in total): but you can also buy the whole audiobook at a discounted price of just £15. Here's a link to the audio sampler and to Order Superinvestors.

So please switch on and enjoy Share Radio - we look forward to welcoming you!

THE LONDON INVESTOR SHOW **PRIZE DRAW**

For the first time, the organisers of the London Investor Show have put together a first-class prize draw for delegates - an opportunity to say thank you for attending, and a chance for delegates to leave the London Investor Show with a special prize!

Prizes this year have been kindly donated by sponsors and exhibitors, and other supporting companies. You could be in with a chance of winning one of the following prizes.

"If you've not already posted your entry for the draw, you can find entry forms available in the Registration Area. Simply complete your name and delegate badge number, and post into the Prize Draw Post Box.

The draw will take place at 3.50 pm today, in the ShowCase Theatre. Please note that you must be present at the draw in order to claim any prize. Hosted by Alpesh Patel, and Lisa Campbell from the London Investor Show.

Good luck!

MONEY COMES. MONEY GROWS. SUCCESSFUL TECHNIQUES FOR THE PRIVATE TRADER.

Private traders often get distracted away from what is the best approach for them as "private traders" given the amount of information on the internet. In this short presentation, Zaheer will cut through the clutter and demonstrate his long-term trend trading techniques that are most suited for the private trader, techniques that place emphasis on capital-protection first and that allows the profit to roll in effortlessly and exponentially. Less, in trading, is definitely more and Zaheer will be sharing his techniques that will deliver on both more profit and, crucially, more time. Zaheer says that "compromise" is not a word that needs to be associated with your career as a trader. This is the perfect start to the day for all those who are serious about putting their hard-earned money and savings to work in the safest yet most rewarding possible way.

Zaheer Anwari

10:35 - 11:05

(LIVE BROADCAST FROM MAIN AUDITORIUM) WELCOME TO THE LONDON INVESTOR SHOW 2017 - SEVEN WAYS TO TURN UNCERTAINTY INTO OPPORTUNITY

Investors have never faced such an uncertain environment. From Brexit to Trump, Chinese debt to North Korea it is hard to imagine a more unpredictable backdrop to man aging an investment portfolio. With this in mind, Tom Stevenson, investment director for personal investing at Fidelity International, casts an experienced eye over the global economy and markets to help investors navigate a path towards achieving their financial goals. His presentation will analyse seven key themes and highlight an investment solution for each of them.

Tom Stevenson,
Fidelity International

11:10 - 11:30

(LIVE BROADCAST FROM MAIN AUDITORIUM) KEYNOTE SPEECH: LONDON INVESTOR SHOW 2017 - "HOW TO MAKE A MILLION IN 20 MINUTES"

As a founder of Seven Investment Management and a well-known and highly-respected industry figure - Justin Urquhart Stewart has a keen sense of what private investors need to know, and how current events can shape future outcomes. Justin has the experience, the know-how and the simple aim of helping investors. A long-term supporter of the London Investor Show, we are delighted to welcome him back to give the KeyNote Speech this year. Book your seat to find out what pressing issues Justin will focus on - and how these issues are your issues, affecting investors across the UK.

Justin Urquhart Stewart,
Seven Investment management

12:05 - 12:35

HOW TO TRADE CRYPTOCURRENCIES & CURRENT TRADE IDEAS

Thousands of investors around the world have joined the Cryptocurrency craze and with Bitcoin & Ethereum recently hitting record highs, it's easy to see why there is such a high demand. But what are cryptocurrencies and how can you actually trade them. Join XTB's Chief Market Analyst David Cheetham for a special 30 minute introductory session on trading Cryptocurrencies. XTB is one of the few FCA regulated brokers who offer a range of Cryptocurrency CFDs, and David is one of the most prominent educators on Cryptocurrencies this year.

Voted Best Investment Software 2002-2016

JUSTIN URQUHART STEWART
Seven Investment Management

Having trained as a barrister, Justin took up corporate finance, working in both Africa and Singapore. He then returned to the UK and helped in the developments towards Big Bang in 1986 in London which led to him helping to found Broker Services in 1986. Broker Services went on to become Barclays Stockbrokers, where Justin was Corporate Development Director. In early 2001, he co-founded Seven Investment Management, an investment management business that innovated the UK investment market with the introduction of the first Sterling Investment Wrap Account. Seven Investment Management now manages and administers around £5.2 billion on behalf of professional financial wealth managers and intermediaries.

TOM STEVENSON
Fidelity International

Tom joined Fidelity in 2008. A spokesman and commentator on investments, Tom is responsible for defining and articulating investment strategy for Fidelity's Personal Investing business. Widely quoted in the national press and appearing regularly on radio and television, Tom is a sought-after expert on markets, investment trends and investment funds. He is a weekly columnist in the Daily Telegraph, and regularly appears on BBC News, Sky and major radio stations. Prior to joining Fidelity, Tom was a financial journalist working for publications including Investors Chronicle, the Independent and the Daily Telegraph.

RICHARD PARKIN
Fidelity International

Richard heads Fidelity's work on assessing the ever changing landscape for pensions and retirement, identifying opportunities to help its customers and develop its products and services. He leads Fidelity's retirement thought leadership, combining with colleagues around the globe to provide fresh insight into the ever more complex issues customers face in saving for and living in retirement.

JUSTIN PACKSHAW
De Roemer

Justin is an entrepreneur, philanthropist and explorer. He is the Managing Director and co-founder of the award winning fashion label, De Roemer and is also a highly sought-after international speaker, giving talks worldwide to businesses about the 'The Science of Achievement', 'Progressive Leadership' and 'Adaptability'. Justin served as an Officer in the British Army and was involved throughout the first Gulf War and was also Equerry to one of the British Royal Family. Shortly after leaving the Army he did an MBA at Edinburgh University before moving to New York, where he worked in the financial sector, before setting up his own business.

JUNAID MALIK

Junaid Malik is a professional investor specialising in Quality Investing. He believes in long-term buy & hold strategy and owns stakes in quality businesses.

He has been developing applications for banks and is passionate about use of artificial intelligence to find quality investments.

He also runs London Quality Investing Club to connect private investors and learn about new businesses.

He enjoys learning foreign languages and touring off-beat countries on his cycle.

ALPESH PATEL

Alpesh has more than 220m viewers on his BBC paper review. He has written 18 books translated into 8 languages. 1 asset management company founded. 200 investment columns in the Financial Times. 200 programmes for Bloomberg TV as co-presenter. Number 1 'stock picker' by Financial Times for predicting the FTSE 100 most accurately over a 12 month period. 1 investment software, Alpesh Patel Special Edition of Sharescope, which outperformed all UK company fund managers over the past decade - and Warren Buffet. 250 newsletters a year on the markets via www.investingbetter.com 50 videos on trading on www.alpeshpatel.com

ZAHEER ANWARI
Full-time Trader

Zaheer is a full time trader. Using technical analysis, he has mastered how to repeatedly take advantage of long term trends in minutes a day using the daily and weekly time frame. His journey from novice to full time trader is attributed to the time spent and knowledge gained from my mentors. Zaheer says, "with all the knowledge I have gained over the years of being a trader, I cannot stress the importance of having certain key elements in place to achieve success. I see these elements as links in a chain. If one is weak, the chain will simply break".

ADAM FRENCH
Co-Founder and CEO of Scalable Capital

Adam is Co-Founder and CEO of digital investment manager Scalable Capital. Before founding the business, he spent seven years at Goldman Sachs as Executive Director of Commodities Trading. Adam was responsible for the commodity structured products franchise, including risk management and developing client solutions. Prior to this, he worked in Derivatives Trading where he was responsible for electronic trading for private clients.

DAVID ROBERTS,
The House Crowd

David heads up The House Crowd's London office in One Canada Square, Canary Wharf. Having spent over ten years working with high net worth clients David felt there was an enormous opportunity for The House Crowd to work with bigger investors, family offices and institutional funds. David believes the growth in alternative finance will disrupt many of the traditional wealth management businesses as tech savvy investors can access market beating returns from Crowdfunding Platforms at the click of button, without unnecessary management fees.

SARAH HENLEY,
NextUp Comedy

Sarah is one of founders of NextUp Comedy. Her background is in legal and banking having worked at WilmerHale and Citibank. She is also an NLP Master Practitioner and award-winning playwright. During her time at Citi, Sarah ran a Time Out recommended comedy night and accompanying YouTube Channel - ComComedy. This allowed her to build strong working relationships within the comedy industry. During this time, she noticed how many critically acclaimed comedy shows were disappearing with no visual trace - frustrating comics and audiences alike - and decided to do something about it, so launched NextUp.

NAEEM ASLAM
Chief Market Analyst, ThinkMarkets

Naeem Aslam is Chief Market Analyst at ThinkMarkets. He won the National Award in 2010 for "Young Irish Broker".

His wealth of trading the financial markets experience spans over 10 years and he has specialised in the technical and fundamental analysis. Naeem has worked with Bank of America in equity trading and Bank of New York as a hedge fund trader.

JOHN KENNY,
Investex Capital

John Kenny is based in London, and is a director and shareholder of Air Assets and of Investex UK, concentrating on aviation and investment opportunities. He provides a unique blend of technical and business knowledge to make ideas go from a possibility to reality.

Professional Mechanical Engineer (University College Dublin). Languages - English, Irish, German, Dutch, French, Portuguese, Spanish.

MIKE HOLT,
The Landlord's Pension

Mike Holt has been involved in the property investment sector for over 10 years. He has personally purchased and developed several properties of his own, as well as sourcing over 350 properties for other clients. He speaks around the UK on how investors are using pensions to invest in property.

LAURENCE BURTON:
CEO GBMS Tech:

Laurence Burton is a seasoned operator with experience from SME's through to PLC's, spending his professional life working within the IT market place. He was one of the Managing Directors within the Hays Logistics organization. Laurence emanates from an engineering back-ground and has over 25 years experience of managing high-tech global roll-outs of both software and hardware solutions, primarily with the travel and airline industry. From his days of managing install services of high end firewalls for Resilience Corp. Laurence has built up a wealth of knowledge surrounding IT security infrastructure proving vital in understanding the market and selecting the very best of new and emerging technologies that will advance cyber security.

Everyone's private wealth manager, powered by technology.

Everyone needs to take action to ensure their financial well-being during retirement. A new breed of accessible wealth managers is emerging to help private investors achieve this goal.

The majority of savers would rather their money was managed by a professional but handing over the reigns can be costly and inaccessible. Those who do brave the complexity of the markets soon realise that their lack of professional tools and tendency towards behavioural biases harms their investment returns. Research shows that private investors trying to invest themselves typically underperform the market by three percent per year.

These challenges mean that many savers keep their money in cash, which not only generates poor returns but is also gradually eroded by inflation. Property is heavily relied on too, but various metrics show that this asset class is widely overheated. In the meantime, savers have watched as capital markets continue to deliver long-term positive returns. The difficulty is knowing the best way to gain access to these superior returns; when savers look to active funds, they find they are too expensive and more often than not, underperforming.

A new way towards better investment outcomes

As Europe's fastest-growing technology-based investment managers, Scalable Capital's mission is to offer savers a better alternative. Using a data-driven approach, it delivers accessible private wealth management that is both bespoke and low-cost, fundamentally changing investing for the better.

Its investment process is based on highly sophisticated algorithms which are constantly tested by a team of data scientists and financial experts. The algorithms can accurately assess market risk at a rate no human investment manager could replicate, with the aim of generating a better return for every unit of risk an investor is willing to take.

This smart asset allocation continually monitors and - if needed - adjusts clients' portfolios. The benefit is that each portfolio matches the client's individual risk tolerance at all times, independent of current market conditions; a sophisticated service previously only available to institutional investors.

Free seminar at 10.45am
How can technology improve your investment outcomes?
Adam French,
Founder & CEO of Scalable Capital

Unprecedented transparency coupled with low fees

Scalable Capital's risk categories provide an unparalleled understanding of true annual downside risk. Using a quantified risk measure, clients are given the choice of 23 granular categories. Traditional risk descriptions such as 'moderate' and 'conservative' seem somewhat meaningless by contrast.

Clients are able to view the performance of their portfolio whenever they want via Scalable Capital's mobile apps or the website. They can get in touch with the client services team at any time or attend one of the regular in-person seminars and online webinars.

To hold an account, customers are charged a fixed fee of just 0.75 per cent of the value of a portfolio per annum. This makes the service cheaper than three quarters of the other options in the marketplace, whilst offering a more advanced and comprehensive investment solution.

So how should cash rich, time poor people grow their retirement funds?

Scalable Capital encourages investors to begin immediately and not be put off by the complexity of the markets. Starting early gives investors the benefit of compound returns. Scalable Capital's low fees and controlled approach to risk means that investors can grow their money efficiently, without any hassle and with more peace of mind, getting ready for the retirement they deserve.

SPEAKERS

RODNEY HOBSON
Top Financial Commentator
Rodney Hobson is one of the country's top financial commentators. He writes a weekly column for the Morningstar financial news website and his beginner's guide to the stock market, *Shares Made Simple*, has been reprinted five times and is in its second edition. He is a regular speaker at the London Investor Show, was a guest speaker on the Fred Olsen World Cruise this year and addresses investment clubs and other organisations. Rodney is a former News Editor for Business News on The Times and he has contributed to the City pages on the Daily Mail and The Independent. He has been interviewed on BBC TV and Radio and on CNBC. During seven years living and working in Asia he was Business Editor of the Singapore Monitor and Deputy Business Editor of the Far Eastern Economic Review.

NICKY MCCABE
Fidelity International
Nicky joined Fidelity in 1999 and is currently Head of Investment Trusts. In her role, Nicky is responsible for all aspects of the £3bn investment trust business. Nicky currently sits on five Fidelity company boards as a non-executive, including Fidelity Special Values and Delta Healthcare China. Nicky is also a trustee of Tomorrow's People, a charity working with young people facing barriers to employment. Prior to joining Fidelity in 1999, Nicky spent 6 years at HSBC Asset Management and 2 years at McKinsey & Co.

BILL MCQUAKER
Fidelity International
Bill joined Fidelity Multi Asset in October 2016. He has three decades of investment experience, joining Fidelity from Henderson Global Investors, where he was Head of Multi Asset. Before this, Bill worked at Credit Suisse, where he held roles in European equity strategy and quantitative research. Over his extensive career, Bill has developed a rigorous and disciplined investment approach. He has a deep understanding of asset class behaviour, and substantial experience in managing multi asset investment strategies to deliver specific outcomes for clients. Bill graduated from Edinburgh University in 1985 with a BComm degree in Business.

NICOLA HORLICK
Money&Co
Nicola read Jurisprudence at Balliol College, Oxford. In 1983, she joined S.G. Warburg as a graduate trainee. She worked with Leonard Licht, one of the leading fund managers in the City during the 1980s, and together, they built up the Specialist Equity team of what became Mercury Asset Management, and Nicola was appointed a director of Mercury in 1989. In 1991, Nicola moved to Morgan Grenfell Asset Management and she was appointed Managing Director of the UK business in 1992. Over the following five years, funds under management increased from £4 billion to £22 billion and Morgan Grenfell became recognised as one of the leading managers of UK pension funds. In 1997, Nicola left Morgan Grenfell and set up SG Asset Management for the French bank, Société Générale.

DAVID PAUL
VectorVest
David Paul was born in July of 1955 in Northern Ireland. He attended Rainey Endowed School and studied mechanical engineering at the Queens University of Belfast. In 1981 he graduated with a PhD in the subject.
From October 2012 to the present he has been Managing Director of VectorVest UK and VectorVest SA. He continues to trade his own account in the share, forex and commodity markets each and every day.

REGINALD LARRY-COLE
Buy2Letcars and Wheels4Sure.
He built the businesses into a multi-million pound turnover concern within 11 months. In just over 5 years his leasing income is north of £4million with over £20 million worth of vehicles funded. This fast growth has seen the leasing company included in the top 50 Fleet News listing, the world's first car leasing company funded by people for people. He is particularly proud of the leasing companies exceptionally high client recommendation on public record which has been above 96% + recommendation since 2012.

TOBY FINDEN-CROFTS
Research in Finance
Toby has over 20 years' experience within the financial services industry, with a deep understanding of product development, distribution, media and communications within the market. He is a regular commentator in the media and has held a number of special adviser roles for private companies, such as the Social Business Group. Toby has also written a number of reports about the UK investment market, while helping and advising some of the world's largest financial service companies at a senior or board level. Before setting up Research in Finance he was responsible for publishing some award winning consumer and trade titles across a range of different markets; including Investment Week, Bloomberg Money and Professional Pensions.

WILL HUNTING
Cresco
Like many traders he describes the early years as a series of "humbling" experiences. Feeling that they should be avoided he started a journal recording simple techniques and market observations which allowed him to trade successfully and develop a hobby in to a career. Some of that journey was documented in public forums dedicated to trader education.
He authored Trading with Deadly Accuracy which popularised price action and for many became a personal turning point in their development. He has helped hundreds of traders new and veteran alike to build solid foundations in technical analysis, price behaviour, market psychology & critically the ability to make sensible decisions.

RAY CLARK
Director of Educational Services, VectorVest, Inc.
Ray Clark is the Director of Educational Services for VectorVest, Inc. During his nine-year career at VectorVest, he has been interacting with and educating investors around the world on how to make money in the stock market using the VectorVest system of stock analysis. In his current position, Ray is responsible for the creation, planning and delivery of all VectorVest's educational material.

Prior to his career at VectorVest, Ray spent many years in management. He studied at St. Clair County Community College and Northwestern Michigan College and now resides in North Carolina with his wife and son.

CLIVE LAMBERT
Founder, FuturesTech
Clive Lambert is the founder, and continues to be the main contributor, for FuturesTechs. He has been in the City for 30 years, has been in the Futures Market for 25+ years as a Broker and Trader, and has been writing Technical Analysis for over 15 years.

He has had articles published in various Technical Analysis publications, is regularly quoted on the leading newswires, has appeared regularly on CNBC, and now is seen on Tip TV weekly (usually Wednesday's!).

STEVE CLAPHAM
Steve Clapham is a highly experienced investment analyst with an international reputation for quality in-depth analysis. He specialises in the independent analysis of unquoted companies, and has in 2017 produced in-depth research on upcoming IPOs like Saudi Aramco and Spotify.

Steve is Founder of Behind the Balance Sheet, a research consultancy which specialises in the analysis and valuation of both quoted and unquoted companies. He is also a shareholder in Hardman & Co, the corporate research firm, where he helps a number of clients.

KUNAL DESAI
Bulls on Wall Street

Kunal Desai is an American stock trader and CEO of Bulls on Wall Street, an online trading academy. Kunal runs his own hedge fund that gives traders with smaller accounts an opportunity to trade with more capital. He is a passionate day and swing trader and loves helping new traders develop their own winning strategy. Aside from trading, Kunal loves traveling the world with his friends and family.

COMPANY CENTRAL

FREE SEMINARS

Which company deserves your support? Which company will deliver capital growth, and regular dividends, and enhance a successful portfolio? Which company will YOU choose to invest in?

Company Central at the London Investor Show offers a platform to some of the most exciting UK businesses around right now - from telecomms to mining, pharmaceuticals to support services - a wide range of interesting companies who want YOU to become a shareholder. Using their time in Company Central, top management from these companies will present their business - past achievements, current trading activity, and, most importantly, their plans for the future. Making an investment into a company requires a significant amount of due diligence, and a lot of serious thought. Hearing the companies, and watching their presentations will certainly help you decide whether or not to dig deeper.

INVEST YOUR PENSION IN PROPERTY

In our presentation today we will be covering some key points:

- How to invest in property using a pension with as little as £35,000
- Why most of us ignore our pensions and why now may be a great time to take an interest
- How you can manage your pension funds yourself and choose to invest them in property
- How you can swap the volatility and uncertainty of the stock market for fixed returns in property
- Different ways to structure property investments within a pension scheme

Investing your pension in property is not a new concept, it's just that you've never been told about it before. If you've ever paid into a pension or know someone that has, this seminar is not to be missed!

Mike Holt,
Landlord's Pension

MICHAEL MARTIN
Relationship Manager, 7IM

Michael joined 7IM in 2017 as a relationship manager. He has financial industry experience of over 20 years, 17 of which has seen him advising clients. He specialises in advising partners in law and accountancy firms, in addition to working on complex financial issues with private clients. He previously worked for Barclays Wealth and more recently Cazenove Capital. He holds a diploma in Financial Planning and is a member of the Chartered Institute of Securities and Investment.

STEWART SANDERSON
Head of Relationship Management

Stewart joined in March 2013 to run the 7IM Discretionary Relationship Management team. Stewart was previously a Director at Coutts & Co Wealth Management and brings over 20 years of experience gained from his time as an Independent Financial Adviser, Private Banker and Regional Director across the UK Private Banking and Wealth Management landscape. He is responsible for day to day management of the relationship management team at 7IM as well as developing and running relationships himself.

DAVID CHEETHAM,
Chief Market Analyst at XTB

David Cheetham is the Chief Market Analyst at XTB UK. He began his career trading Brent futures on a prop desk having completed an MSc in Banking and Finance at Newcastle University. After initially trading Brent futures, he quickly expanded to cover WTI and some fixed income markets. After two years he branched out and started trading for himself, covering a wider range of assets including indices and FX whilst maintaining his core focus on Oil. David now actively trades most asset classes and whilst his approach is predominantly technical, he is well aware of fundamental drivers impacting markets and uses a combination of both when selecting his trades. More recently, David has become one of the most popular educators in the UK on trading Cryptocurrencies.

DR DAVID BROWN

Dr David Brown is a medical researcher with several major inventions to his name. At the age of 40, he decided to learn to invest to take control of his life. He achieved financial independence in his early 50s, allowing him to stop full time work and pursue the life he wanted.

He co-founded Monthly Investor to help other private investors achieve the same goal - www.monthlyinvestor.co.uk

DAVID BELLE
Trade Point Pro

David Belle began his trading career at the tender age of 17, after spotting a YouTube video for a trading platform and deciding to give it a try. In the years since then, he's learned everything there is to know about the markets and how to trade them. He's been successfully trading his own money for a number of years and has also spent time working in the city for a major broker.

David has just published his first book Retire Rich: How to Trade Your Way to £1,000 a Week, which is available here: www.retirerichbook.com

GAVIN OLDHAM
Chairman, Share plc

Gavin Oldham is Chairman and controlling shareholder of Share plc and The Share Centre (www.share.com).

From 1995 to date he has been an elected lay member of General Synod for Oxford Diocese, and is a Church Commissioner and a member of its Assets Committee. He has also served on the Ethical Investment Advisory Group and the Church Urban Fund. He is lay chair of the Wendover Deanery, and in 2012 established the 'Resourcing Christian Community Action' website www.how2help.net for the Church of England. Gavin Oldham was also a trustee of pfeq (www.pfeq.org), the Personal Finance Education Group from 2003 to 2014, until it merged into Young Enterprise.

STEPHEN KENDAL
Steemit

Stephen Kendal is an entrepreneur and an advocate of Blockchain Technology in particular to the application of global finance, global trade and social media. With a career in construction, contract and engineering cost management spanning over 30 years Stephen has collected an extensive knowledge in the field of construction and finance focusing in on data management and systems development.

MATT STARKEY
Steemit

Matt Starkey is a chartered mechanical engineer and project manager, having lived and worked all over the world managing multi billion dollar industrial projects. Matt became a blockchain and crypto currency investor and enthusiast in April 2013. Having made successful investments in blockchain and the crypto currency markets Matt has a multitude of positive and cautionary experiences to share anyone investing in crypto currencies for the first time.

IAN FISHWICK

Ian has been a telecommunications MD/CEO for over 25 years working in areas as diverse as secure battlefield communications and cable television. He has been running companies providing voice telephone service to the public since 1995. "I've learned over the years that customers need a small number of things doing very well to keep them satisfied. Fair prices. Reliability. Accurate bills. And the ability to speak to a friendly helpful person who'll sort out their problem if something goes wrong." Ian is also Commercial Director of Innopsis, the specialist trade association for Telecom suppliers to the Public Sector. In this role Ian has been elected by his industry peers to lead negotiations with government bodies on issues that affect all of the association's members. The vast bulk of all spend by the public sector goes to one of Innopsis' members.

DANIEL MAJOR

Daniel Major is a mining engineer from the Camborne School of Mines in the UK. His career spans over 25 years in the mining industry, where he has established a solid track record, initially with Rio Tinto at the Rossing Uranium Mine in Namibia, then at Amplats in South Africa, and later as a mining analyst with HSBC Plc, followed by a role at JP Morgan Chase & Co. in London. More recently, Daniel was Chief Executive and later Non-Executive Chairman of Basic Element Mining and Resource Division in Russia, and held leadership positions in several Canadian-listed mining companies with exploration and producing assets in Canada, Russia, and South America. Daniel joined GoviEx in 2012 and has been responsible for the transition of the company from explorer to developer.

DYLAN LEIGHTON
Steemit

Dylan Leighton is a professional speaker in tech-psychology and social engineering. A former white-hat hacker, futurist and advocate of blockchain and cryptocurrencies, he is a leading educator for businesses in developing and deploying innovative emerging technologies.

IAN JENSEN-HUMPHREYS
Senior Investment Manager

Ian joined the Investment Team at 7IM in 2016 having spent 15 years at Goldman Sachs specialising in equity derivatives, including risk management and hedging strategies. Prior to joining 7IM he spent two years at Citigroup running the cross asset solutions team focussing on UK pension funds. In joining, he has transitioned to fund management and brings with him 17 years of Investment Banking experience. He holds a BA in Physics from Oxford and is a CFA charter holder.

Stand B1

Helping our customers make the right decisions for them is a real focus for us. We provide the tools, information and guidance, to help you make the most of your money and become a better investor and are proud to have won the Platform Best Platform for Guidance award for the last three years running. Come and visit us at stand B1. Capital@risk

Stand A1

We're Seven Investment Management – or 7IM – an investment management business that helps individuals and their families manage their capital to meet their financial needs and aspirations. We look after around £10bn of their money, as well as our own, with around 200 of our people taking care of it and them.

We've been around for over a decade, which means we've probably seen the best and worst the world can throw at us. Yet we've still delivered a strong investment performance consistent with what we've promised our clients.

Whether you're a seasoned investor or just getting started, Investors Chronicle is the authoritative source of share and fund tips and comprehensive companies coverage for the private investor. We provide in-depth analysis and independent commentary to help investors make money. We scour the markets every day to help you make sense of the financial world and unearth the hidden gems that could give your portfolio a lift. It's been our stock in trade for the last 154 years, which is why we know there are always plenty of bargains around if you know where to look. And it's also why thousands of readers come to us every day for independent views and inspiration. Digitally and in print, we're here to make you a better investor.

The UK's first radio station dedicated to business, finance and money. Imagine BBC Radio 4 meets the Financial Times – totally unique in commercial radio. Tune in and our award-winning presenters will entertain and inform you: from the best travel destinations to the best deals, top investment tips, breaking news and market commentary from experts you can trust. Our purpose is to broadcast news and advice on money and investment matters in accessible language for all. Share Radio started broadcasting on UK DAB radio on 4th November 2014, and as from Friday 5th May 2017 we're 100% online, across the world.

Avantis Wealth Stand No. C19

Avantis Wealth is a specialist in high return, alternative investments. We help clients achieve market-leading returns between 7% -15% per annum from their pensions, investments, and savings. The aim is to assist clients in their financial journey towards greater financial security and a better quality of life.

The company was founded in 2012 as a direct reaction to the poor performance of the traditional investment sector. We believe that alternative investments can offer high returns at low to moderate risk through investments that in the majority offer first charge security over property and/or land. Our F.R.E.S.H. investment strategy provides investors with the opportunity to improve their income now or for later in retirement."

Buy2LetCars Stand No. D20

Buy2LetCars offers investors a unique opportunity to fund lease cars for UK drivers through their sister company Wheels4Sure to people with less than perfect credit. Investors can expect returns of 7-11%PA with our asset-backed scheme. Visit www.Buy2LetCars.com for further details or call 0208 289 6667 or see <https://youtu.be/dWJkbgXOU0>.

Cogress Stand No. C14

Cogress is a unique private equity firm connecting qualified investors with leading property developers. With investment units starting from £20,000, our model provides access to property development opportunities usually reserved for the largest investors. Each opportunity is carefully vetted and aimed at sharing profits on exit. Since 2014, Cogress has raised more than £130m in equity, invested in more than 40 UK projects with a gross development value of more than £800 million.

Harriman House Stand No. A3

Harriman House is one of the UK's leading independent publishers of financial and business books, eBooks, apps and websites. We have an extensive catalogue of titles and produce high quality, highly focussed products by working in conjunction with leading authors, journalists, experts and institutions. www.harriman-house.com Don't forget to visit us on Stand No A3 to choose a FREE investment or trading book.

Supporters

(www.moneyandco.com) is a new person-to-business crowdfunding platform which brings together people looking for a better return on their cash with small and medium-sized companies seeking finance. It's a smart, modern way for businesses to get the capital they need, avoiding the expense and hassle of a bank. Companies make loan requests through the website and lenders then bid for the loan and the income it generates via an auction. Each loan application is rigorously assessed by Money&Co.'s experienced credit team who award successful loans a credit rating, which provides a guide to the interest rate. Companies must be profitable and have at least three years' filed accounts.

Supporters

Stand D21

Research in Finance creates and manages panels of consumers who have an interest in finance. Any member of the panel will get the opportunity to take part in surveys, which have an influence on products and services on offer to the market. Taking part in the surveys is usually paid, as a reimbursement for the time taken to do the research. To sign up to one of our panels please come and visit us at stand number D21. Any delegate signing up also gets entered into our prize draw where you get the chance to win a Kindle Fire HDX.

SIGnet Stand No. C14

SIGnet provides: Local Groups across the country, usually meeting monthly – with stimulating agendas! Small enough to allow everyone present to contribute. Specialist Groups for investors particularly involved in a particular form of investing. No financial commitment to contribute to a portfolio. What you invest in and what you are worth is your private concern. The Serious Investor magazine reporting on topics relevant to private investors and members' research.

GoviEx Company Central

GoviEx is a mineral resource company focused on the exploration and development of its African uranium properties. GoviEx's principal objective is to become a significant uranium producer through the continued exploration and development of its mine-permitted Madaouela Project in Niger, its Mutanga Project in Zambia, and its exploration Falea Project in Mali. GoviEx controls one of the largest uranium resource bases among publicly listed companies.

GoviEx's major industry shareholders include: Cameco, one of the world's largest uranium producers; Toshiba, whose wholly owned subsidiary is Westinghouse, a world leader in nuclear technology supply; Denison, a uranium development and exploration company that focuses on the infrastructure-rich eastern portion of the Athabasca Basin region in northern Saskatchewan, Canada, and manages Uranium Participation Corp.; and Ivanhoe Industries, a U.S.-based, privately held company actively engaged in supporting technology, energy, and natural resource companies worldwide.

In addition to free online events, we offer access to mentoring and other educational services for active private investors and traders.

Come and meet our trading mentors on the stand today!

The Society of Technical Analysts (STA) Stand No. D18

The Society of Technical Analysts (STA) is a not-for-profit organisation dedicated to the promotion and understanding of technical analysis and its role within behavioural finance as a vital investment tool. It aims to serve all members of the investment community, from the investment industry professional to interested members of the public.

The STA runs a comprehensive education programme, holds monthly lectures (also available via delayed video links on the STA website), publishes a tri-annual journal and offers its members access to professional Bloomberg and Reuters financial and technical analysis newsfeeds, a weekly blog, IFTA webinars as well as an extensive library. All STA educational courses and examinations are accredited by the CISI (The Chartered Institute for Securities & Investment) and IFTA (The International Federation of Technical Analysts).

Birchwood Stanhope Stand No C11

Birchwood Stanhope is an Alternative Investments Company, established in 2010. We are 100% independent and based in Cheshire, United Kingdom.

Birchwood Stanhope has been dedicated to developing alternative investment solutions for close to 8 years. We act in the best and long term interests of our investors, taking into account economic, ecological, social and ethical issues. Our broad experience as an alternative investment manager enables us to identify, analyse and capture attractive investment opportunities.

We enable private and institutional investors the chance to diversify in both currency and geopolitical locations. Our substantial expertise, which is built across the entire value chain, enables us to identify and manage attractive investments for our investors. We apply a holistic, solution orientated approach to investment management, from the development and implementation of a strategy, to the management of and exit from an asset.

NextUp Comedy Stand No C12

'The Netflix of UK Stand-Up' - Engadget

NextUp disrupts the live stand-up market by filming the most exciting comedy specials and showcasing them to a worldwide audience of fans via a subscription platform.

For £3.50 per month, a 30 day free trial and no contracts, members can watch over 70 exclusive shows.

Whilst allowing comedy fans to discover great comedy wherever they are, NextUp also preserves shows and opens up an additional Spotify-style revenue stream for comedians.

Since launching only last November, NextUp has proven traction having achieved their subscriber targets, gained 5-star average ratings across Android and iOS stores, filmed 20 original shows to add to their growing catalogue, signed with major international distributors and closed a funding round with Velocity Ventures.

NextUp's current funding round, which will be focused on growing the catalogue and marketing to a wider audience, closes on December 1st - come and chat to us for more details, or email sarah@nextupcomedy.com.

Investex Capital Stand No A5

Visit Investex Capital on Stand No A5 and talk to the founders - Patrick Bruan and John Kenny.

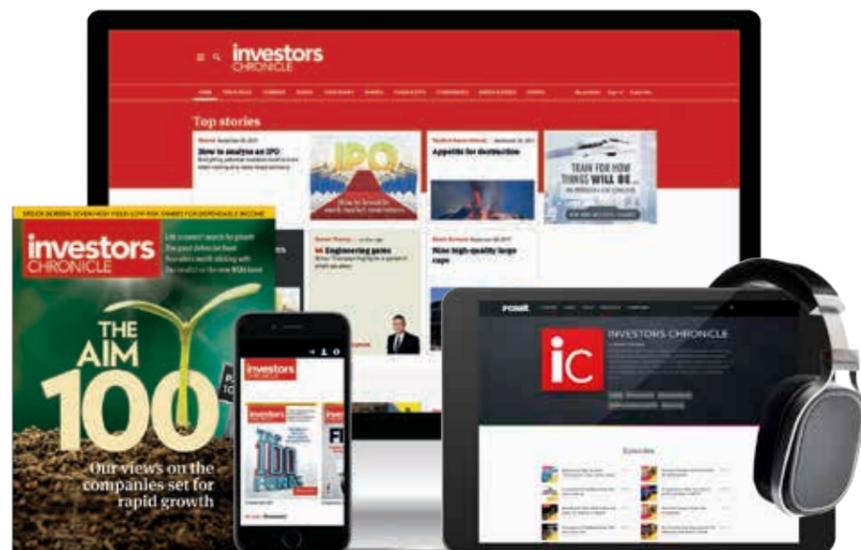

Scalable Capital Stand No. A4

Scalable Capital is changing private wealth management for the better. It combines a data-driven investment process, low fees and exemplary client service. Scalable Capital uses modern quantitative methods to ensure risk in each client portfolio is stable over time, while delivering better returns for every unit of risk. By investing in ETFs, costs stay low and diversification stays broad. A low investment minimum makes its service accessible to a broad audience of investors and its use of cutting-edge technology sets Scalable Capital apart from the rest of the industry. As CNBC recently summarised: "Online investing made better, not just cheaper".

With control comes confidence. Bring your pensions together today.

LET'S TALK HOW.

**Earn £100
to £1,000
cashback**

Exclusions and
T&Cs apply

If you have pensions with a number of different providers, take closer control of your retirement savings by bringing them together in a Fidelity Self-Invested Personal Pension (SIPP).

- Transfer your pensions to us and manage them all in one secure online account.
- Earn £100 to £1,000 cashback if you apply by 8 December 2017 (exclusions and T&Cs apply).
- We will not charge you to transfer to us.
- If you are charged exit fees, we will reimburse you up to £500 (T&Cs apply).

The value of investments can go down as well as up, so you may not get back the amount you originally invest. You cannot normally access money in a SIPP until age 55. Pension transfers can be complex and some types of pension, in particular those with guaranteed benefits, such as defined benefit schemes and pensions with safeguarded benefits, are not eligible for this offer. Advised transfers and re-registrations are not eligible for this offer. Please read our pension transfer factsheet, the cashback T&Cs and exit fees T&Cs, which are available at fidelity.co.uk/cashoffer.

Extra benefits for larger portfolios

If you invest £250,000 or more directly with us, you can enjoy a range of exclusive Wealth Service benefits:

- Support from your own personal Relationship Manager.
- A lower service fee of 0.2% (compared with our standard service fee of 0.35%). Service fees are payable only on the first £1,000,000 that you have invested with us. Ongoing fund charges still apply.
- A free Quarterly Portfolio Report analysing your holdings and fund performance.
- Invitations to exclusive events offering you the latest insights from leading investments experts.
- The same benefits for household family members as well.

**Apply online at fidelity.co.uk/cashoffer
Or call us on 0800 41 41 28**

(Lines open 8am – 6pm Monday to Friday, 9am – 6pm on Saturday)
