

## HELPING CHRISTIAN BOYS THRIVE SUMMIT™

# Phoenix, AZ

**Saturday, February 24, 2018  
8 AM - 3:30 PM**

**First Institutional Baptist Church  
1141 East Jefferson Street, Phoenix**

In most of the world, girls and women are doing better than boys and men in both physical and mental health indicators... In most parts of the world, health outcomes among boys and men continue to be substantially worse than among girls and women. Yet this gender-based disparity in health has received little national, regional, or global acknowledgement or attention from health policy-makers or healthcare providers.

## The Storyline of Boys in the 21st Century

**70-90% of all boys will leave the Christian Church** in their teens or early 20s, and most won't come back.

**Boys have fallen behind girls** in every area of education from Preschool through Graduate school.

**85% of stimulant-addressing medications** (like Ritalin) prescribed in the world are prescribed to U.S. boys.

Boys are twice as likely as girls to be **victims of violence** in America, but in certain age groups the ratio is 6:1.

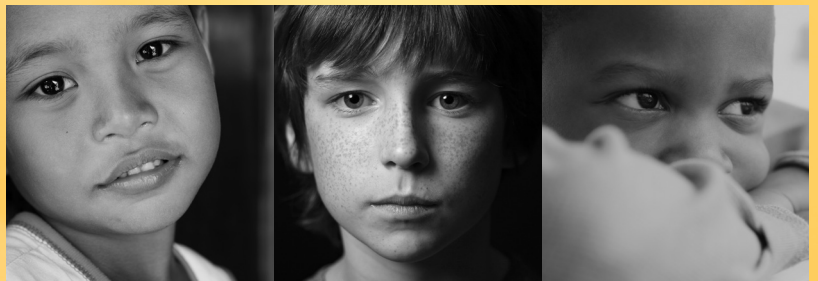

Boys receive **two-thirds of the Ds and Fs** in our schools but less than 40 percent of the As.

Boys are twice as likely as girls to be labeled as **"emotionally disturbed"** and twice as likely to be diagnosed with a behavioral or learning disorder.

Boys are four times as likely as girls to be **suspended or expelled** from early childhood and K-12 learning environments.

Over the last 20 years, the **reading skills of 17-year old boys** have steadily declined.

The **Helping Christian Boys Thrive Summit™** is committed to working with parents, educators, church leaders, community leaders, and all called to the noble task of raising boys. Using brain-science research, Biblical insights, and best practices, the Summit will equip those raising boys to raise them into heroic men who follow Jesus.
