This Web Event is the second in a series on family and youth involvement in evaluation and will focus on engaging youth in evaluation efforts related to system of care expansion. It will explore the implementation of youth-guided and youth-driven practice in evaluation, and is designed for individuals fulfilling multiple roles in system of care expansion grant sites, including youth organizations, youth stakeholders, evaluators, directors and managers, and other team members. Presenters will:

- Provide a rationale for including youth voice in evaluation efforts
- Present a framework for a continuum of youth involvement in evaluation
- Identify the barriers to effective youth-adult partnerships
- Review strategies for incorporating youth voice in evaluation
- Discuss the various roles youth and young adults can play throughout the evaluation process
