AG IN THE CLASSROOM

K-12 Educators

June 5-8, 2017

*4 days of agricultural tours
throughout the county.*

2 units from CSU, Stanislaus

What is Ag in the Classroom all about?

This course is designed to help educators learn more about agriculture in San Joaquin County, as well as to provide tools and resources to help incorporate agriculture into the classroom.

What to Expect:

- *4 Days of exciting tours of farms and ag businesses in SJ County (8am-5pm)
- *Breakfast and Lunch provided each day.
- *Transportation to and from all tours
- *Interaction with local teachers, farmers and ranchers.
- *Learn about the largest industry in San Joaquin County.

Benefits of the Program?

- *After completion of the program, you will receive two continuing education units from CSU, Stanislaus
- *Receive easy, fun and effective lesson plans that are standards based.
- *Hundreds of resources and reference materials will be yours to take home.
- *Networking with other teachers.
- *Learn about the commodities that are grown around you!

Agriculture can be incorporated into every subject!

NUTRITION

GEOGRAPHY
San Joaquin County ships agricultural commodities to how many countries?

MATH
1 acre of grapes produces how many gallons of juice?

HISTORY
What is the Green Revolution? How did it affect agriculture?

"You will learn a lot about agriculture. You may think that ag doesn't apply to your classroom, but it does! Come to this class to learn how, and have fun doing it."

What do past class participants have to say?

"An eye opening experience to the vast array of agriculture surrounding us."

"Attend! You will absolutely NOT regret it. Excellent resources, excellent value, excellent learning experience."

"I think every teacher should take this course, I had no idea how many career options there were in the agricultural industry."

"This is a big eye opener for a teacher or anyone living in San Joaquin County. You will appreciate your local resources a lot more after taking this course."

"I would highly recommend this class to fellow teachers. Not only for what I learned personally, but what I can take back and teach my students about."
