Association Presents...

ACHIEVE RESULTS THROUGH LEADERSHIP

"Achieve Results Through Leadership" an intrAtrain® Blended Learning product will be delivered using a proven six-phase performance model that brings learners to performance mastery faster and more effectively than traditional training systems; allowing them to experience a breakthrough in their learning sooner.

The course includes:

1. Pre-Knowledge Assessment
2. Performance Contracting
3. eLearning
4. Live Workshop
5. Post-Knowledge Assessment
6. Reinforcement with access to coach

What others are saying?

"Got a great deal out of the workshop. Would highly recommend to others."

"It was worth the time and money!"

"Worthwhile, good learning tools that can be taken to heart"

"More people need this training."

"It will help you develop yourself as a better leader."

Why Should Employees Attend This Workshop?

Over 40% of today's great leaders will retire in the next 5-7 years. Developing leaders now is the best way to prepare for this shift. This interactive, blended learning course is designed for employees who want to grow professionally to be great leaders. A great leader drives others to be better; makes tough decisions and can see solutions when others see problems. A great leader can bring positive and lasting changes to your organization.

Who would benefit from this workshop?

Ideal participants include **current or emerging leaders** in your company. All leaders, managers, and supervisors who are accountable to maximize the efficiency and productivity of others will find value in this course.

Group Coaching Option: Five (5) forty-five minute group conference call coaching sessions following completion of the workshop training to improve application of learning to each participant's work situation. Participants will be responsible to complete an assignment and apply each coaching session lesson, reporting back to the group what they learned from the experience.

WHEN CAN I ATTEND?

February 14, 2017 - Wisconsin Dells, WI
