

ALICE Safe School Training

With school safety being a top priority to families, faculty, and administration, we are taking steps to improve and execute a well designed comprehensive safety plan.

Our school has elected to become an ALICE Certified Safe School. ALICE (Alert, Lockdown, Inform, Counter, Evacuate) provides preparation and a plan for individuals and organizations on how to more proactively handle the threat of an aggressive intruder or active shooter event. Whether it is an attack by an individual person or by an international group of professionals intent on conveying a political message through violence, ALICE Training option based tactics have become the accepted response, versus the traditional "lockdown only" approach.

Keypad Entry System: In efforts to provide every reasonable measure to keep our students and faculty safe, we will also be adding a keypad entry system on the main front doors leading to the Japonica campus. Each family will have a code that will grant them access to the campus during the day and during after care hours. We will be sending more information outlining this process.

Your child's safety is our top priority and we are taking proactive measures to provide the safest environment for our families and faculty.

SAFETY FIRST!
