How to Integrate Effective Science Educational Activities into Your Research Plan

Date: Friday, March 2, 2018
Time: 10 am – 12 pm
Room: Hall of Science - HSCI 102

This workshop will assist faculty in rethinking "broader impacts" and strategies for incorporating educational activities into research that supports learning in the university, local schools, and other informal learning settings. This will include widening learning opportunities to include local schools, teachers and the general public. This workshop will include information relevant to faculty interested in pursuing STEM grant opportunities.

This workshop is one in a series within the ORSP Research Funding Forum.

Presenters:
Dr. Lisa Martin-Hansen, Professor & Science Education Chair
Dr. Jim Kisiel, Professor, Science Education

Sponsored by the Office of Research and Sponsored Programs (ORSP)
