- ♦ **Roger Dier** from UW-CTRI (Center for Tobacco Research and Intervention) Senior Outreach Specialist Consultant *"Implementing a FREE WI FAX to Quit Program"*

### FACT Advocacy Award 2017

FACT member Noah Jorgensen was awarded the 2017 FACT Regional Advocacy Award. He was recognized as the graduating senior who has performed the highest level of youth tobacco prevention advocacy work in southern Wisconsin as a FACT member. Jorgensen states, "I hope that my advocacy work has helped Wisconsin teens and the community learn the truth about tobacco products and the deadly effects of using them. I hope I helped other teens and the community to quit their tobacco use and think twice before starting." Noah is set to start school at UW Oshkosh in the Fall. Way to go Noah!

## Deaths Associated with Cigarette Smoking in Wisconsin, 2011-2015

Tobacco use is the leading cause of preventable death. But how does this look in our community? Researchers at the Center for Urban Population Health at UW-Milwaukee recently published a report that looks at how tobacco is playing a role in Wisconsin. The table below is for Fond du Lac County.

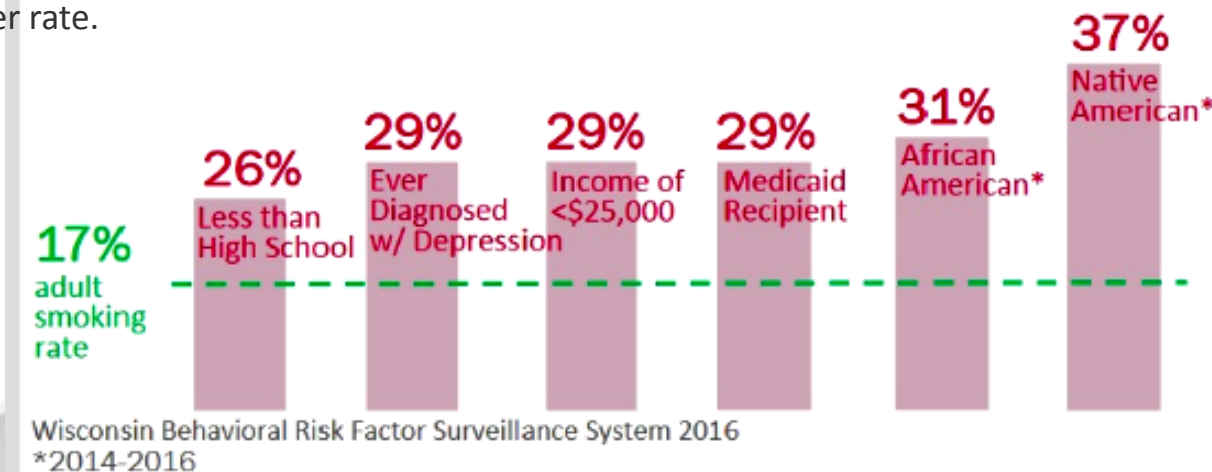

Fond du Lac: Prevalence of Adult Smoking = 15.4%; Prevalence of Smoking during Pregnancy = 17%

Type	Total # Of Deaths	# Due to Smoking	% Due to Smoking
Lung Cancer	54	42	77%
Other Tobacco Related Cancers	37	13	34%
Heart Disease & Stroke	268	34	13%
Respiratory Diseases	62	36	58%
All Causes	926	125	13%

## Wisconsin Behavioral Risk Factor

Findings from the Wisconsin Behavioral Risk Factor Surveillance System 2016 revealed that 17% of Wisconsin adults smoke. However, disparate populations continue to smoke at a higher rate.
