ABOUT AMCHAM HAÏTI ENERGY FAIR

AmCham Haïti Energy Fair is an event brought to you by the AmCham Haïti Energy Committee as a means to regroup our energy industry and relevant partners to share and develop strategies leading towards a more sustainable and Energy efficient future.

The energy industry as we know is very large. Amongst all commonly spoken issues, it consists of numerous sources with varying uses.

This year, on September 16, it will begin its 1st chapter by hosting a two day event: AmCham Haïti Energy Fair, at the E-Power energy production plant in Drouillard. This event will consist of an exhibition area in order for key industry players to expose their products, projects, and innovations, while providing a series of tailored conferences focusing on Electrical Energy;

- Production
- Transmission/Distribution
- Usability

EXHIBITORS AND ATTENDEES

As a first, the AmCham Haïti Energy Committee has personally invited key government officials, law and decision makers in relation with the Energy Sector concerning its Production, Importation, Distribution and Mining.

Energy is a must for everyone. We are targeting the general public while focusing on investor/client attendance, homeowners, and energy consumers as a whole. Conferences will be held to inform the attendance of Haiti's current situation, future potential as well as informative sessions on how individuals can save on consumption and help improve Haiti's energy future.

Energy sector participants in the areas listed below (to name a few) are invited to exhibit their product offerings in the Exhibitor Area Tent (see set-up on next page) while taking advantage of interested attendance.

- Fuel Importers
- Electrical Installation Suppliers
- Electrical Appliances suppliers
- Energy Production Products
- Energy Producers/Retailers
- Energy Projects Contractors
- Renewable and Alternative Energies

ABOUT AMCHAM HAITI

MISSION

AmCham Haïti's mission is to promote trade and investments between the United States and Haiti through free trade, free markets, and free enterprise.

OBJECTIVE

Our objective focuses on 4 main points: Rule of Law, Arbitration, Trade Facilitation and Intellectual Property Rights. We also have a strong interest in promoting Corporate Social Responsibility (CSR) with our Members and with the overall private sector in the country.

AmCham Haïti serves as a reliable source of information on regional trade and investment issues, a critical point of communication between the AmChams in the region, members of the US Chamber of Commerce, and the US government. AmCham Haïti is a vehicle for companies based in the US to invest in Haiti, find partners and opportunities. We act as a coordinator of face-to-face interaction between business and government leaders in the country.

ADVANCING BUSINESS IN HAITI

For over 35 years the American Chamber of Commerce in Haiti has been an influential voice of U.S. business in Haiti. Today, joined together with the other AmChams in Latin America under the umbrella of the Association of American Chambers of Commerce in Latin America and the Caribbean (AACCLA) these 24 AmChams represent more than 20,000 companies and over 80% of U.S. investment in Latin America.

Working in partnership with the US Chamber of Commerce (the world's largest business federation) and AACCLA, AmCham Haïti is the advocate for US Business in Haiti.
