### Patterns of Power: Grades 1-5

#### Inviting Young Writers into the Conventions of Language

Meaning is made when reading and writing crash together in the conventions of language. The book explores ways to harness language and conventions to purposefully activate meaning in both comprehension and composition. Author's purpose is why, and author's craft is how. How do we move the conventions of language from being viewed as a right-and-wrong proposition with only one correct answer? Come discover brain-based, practical ways to use the reading-writing connection to teach grammar and editing in a way that grows young writers and readers.
